Planned

Please note that the bulk of Los Angeles superior court video conferencing is provided not via hardwired units but via mobile units that rolled into any room and then plugged into any data jack on our 50-courthouse local area network.

smaller hearing rooms

Some application outside courtroom; some courts use mobile video equipment making it available anywhere.

Units can be on carts/mobile

We are not located i a courthouse

We use VC primarily for Defense Attorneys to communicate with clients in jail. The equipment is set up in an office at the courthouse.

We will be using it in a conference room; however the equipment is not currently installed.
