Overview of the solicitation

Due: September 1, 2021

The Family-Centered Justice program is a mechanism for cross-sector teams to utilize funding in order to advance collaborative work that will lead to improved outcomes for families impacted by parental substance use and child welfare involvement.
Looking for applicants that demonstrate:
The willingness to form a cross-sector team that includes, at a minimum, courts, child welfare agencies, substance abuse treatment providers, mental health agencies, and other service organizations that agree to work collaboratively on the proposed initiative and have the capacity to support the level of partnership needed to effectively coordinate and sustain cross-disciplinary initiatives.
Looking for applicants that demonstrate:
Commitment to deploying evidence-based and evidence-informed strategies to address the needs of families impacted by substance abuse and/or co-occurring disorders.
Applicants may propose to implement a process to screen family members for substance abuse, behavioral health, housing and food needs, and trauma exposure early in the court process for all case types in order to refer for appropriate services and support healthy family functioning. This is not intended to support universal drug and alcohol testing.
The Six Priority Areas

Implement Peer Recovery Services

Applicants may propose to integrate trained peer and recovery specialists into existing service delivery models. Peers may have prior child welfare involvement and may be in recovery themselves. Recovery specialists enhance support by providing subject matter expertise in SUDs and child welfare.
Implement Trauma-informed Practices and/or Trauma-focused Services

Applicants may propose to incorporate evidence-based or evidence-informed interventions, which include training on the use of trauma-sensitive language, the adoption of trauma-informed court procedures, implementing responsive case management, and/or the implementation of trauma treatment programs such as Seeking Safety, Helping Women Recover, Helping Men Recover, Beyond Trauma, Addiction and Trauma Recovery Integration Model (ATRIUM), and Trauma Recovery and Empowerment (TREM).
The Six Priority Areas

Implement Family-based Services in Community Supervision or Adult Criminal Justice Settings

Applicants may propose to implement evidence-based interventions in community supervision (e.g., probation) settings or adult criminal justice agencies to help families improve parenting skills and increase child skills. Applicants are encouraged to propose incorporating evidence-based or evidence-informed interventions, which include the Nurturing Parenting Program, Celebrating Families!, or Parent-Child Interaction Therapy.
The **Six Priority Areas**

Strengthen Cross-sector Capacity by Supporting Cross-Training, Staff Development, Data Collection, and/or Tools to Support Community Outreach

Applicants are strongly encouraged to use existing training resources where possible. Applicants proposing to fund the development of training materials that already exist will not be competitive. Applicants proposing to collect data are encouraged to use free tools such as REDCap versus proprietary, vendor-based systems.
The Six Priority Areas

Field-initiated Family-Centered Justice Initiatives

We invite communities to propose innovative initiatives that align with the overall intent of the project. To be eligible for consideration, proposed projects must:

• Increase the capacity of the state courts to intervene with adults with substance use and/or co-occurring mental health disorders.
• Involve a collaboration between courts, child welfare agencies, substance abuse treatment providers, mental health agencies, or other service organizations.
• Include a project coordinator.

Applicants considering pursuing Priority Area 6 are invited to provide a brief description of the proposed idea in an email prior to application deadline to ensure that the concept aligns with the intent of the solicitation.
