

Grants Matrix: State-Administered Federal Funds that can Support Court Access to Justice and Technology Innovations

Updated August 24, 2020

This Grants Matrix features high-level summaries of federal block/formula/open-end reimbursement funds (AKA pass-through funds) administered by state (and sometimes local) agency decisionmakers that can include court recipients. These state-administered federal funds can support a range of court-based services, including supported self-help (e.g., court navigators, online legal information, and plain language fillable forms), as well as court partnerships with civil legal aid organizations to develop technology tools, and to provide brief counsel and advice, limited, and/or full representation. Most of the featured funds can also be used for technology that improve remote access to the courts and the delivery of civil legal assistance or legal information.

States receive a significant influx of federal funds to implement many public policies and programs. Combined this accounts for about [one-third of state government funding](#). Many opportunities to financially support the civil legal system flow from states' powers to administer some of those federal funding sources. Avoiding here the technical differences among the [different funding mechanisms](#), this Matrix focuses on those [block](#), [formula](#), and [open-end reimbursement grants](#) where the federally-established amounts and spending parameters give states flexibility to tailor spending to local priorities. Each of the federal funding sources in the Matrix have their own authorizing statute, regulations, formulas, sub-regulatory guidance, and degrees of flexibility. **OMB released several memoranda in March and April regarding federal financial assistance flexibilities related to COVID-19 that agencies can make available to grant applicants and recipients. The most recent memo posted June 18, 2020 extends the expiration dates of several flexibilities. Grantees should check with specific federal and state administering agencies regarding the impact of these COVID-19-related flexibilities for specific award programs.**

NOTE: The Helpful tips column includes tips **in orange font** about **COVID-19**-related law or agency guidance relevant to the funding source. Given the pandemic-related imperative for courts to develop technology tools for remote functions, the Helpful tips column also highlights in **green font** the potential to use funds for **technology**.

This Matrix provides an overview of the following state-administered federal funds that can advance civil justice in the courts:

- AmeriCorps [State and National](#), [VISTA](#) (CNCS)
- [Byrne Justice Assistance Grant](#) (DOJ BJA)
- [Coronavirus Relief Fund](#) (Treasury)
- [Emergency Solutions Grants \(ESG\) program](#) (HUD)
- [Family Violence Prevention and Services Formula Grants](#) (HHS FYSB)
- [STOP](#) (Services, Training, Officers, and Prosecutors) Violence Against Women Formula Grant (DOJ OVW)
- [Title IV-B](#) – State Court Improvement Program (HHS CB)
- [Title IV-D](#) – Child Support and Establishment of Paternity, and Parenting Time (Access and Visitation) (HHS OCSE)
- [Title IV-E](#) – Federal Payments for Foster Care and Adoption Assistance (HHS CB)
- [Victims of Crime Act \(VOCA\) Victim Assistance Formula Grants](#) (DOJ OVC)

Support for this project was provided by The Pew Charitable Trusts.

<p>AmeriCorps State and National</p> <p>CFDA# 94.006</p> <p><i>Corporation for National and Community Service (CNCS)</i></p>	<p>AmeriCorps State and National (AmeriCorps) is a national service program of CNCS, which engages tens of thousands of men and women in intensive community service each year. AmeriCorps provides grants to a broad range of local and national organizations and agencies committed to using service to address compelling community issues. Participating organizations, including nonprofits, courts, public agencies, institutions of higher education, Indian Tribes, and faith-based organizations, enroll AmeriCorps members in an approved national service position and engage them in intensive service.</p> <p>Match requirement: CNCS does not provide all the funds needed to operate the program. There are different requirements for cost sharing or matching depending on different factors. See the 2020 AmeriCorps Notice of Funding Opportunity (NOFO) for details.</p>	<p>Although the NOFO does not expressly mention courts or legal services, AmeriCorps has a long history of court and legal aid grantees both at the national and state commission levels.</p> <p>Grantees can utilize AmeriCorps grants and members to expand their reach and provide more direct legal help to a greater segment of the community. Some grantees have used AmeriCorps members to provide direct services in a variety of different settings including courthouses, legal aid offices, and law libraries.</p> <p>The 2020 AmeriCorps NOFO identifies economic opportunity, education, healthy futures, veterans and military families, rural intermediaries, and faith-based organizations as the six funding priorities.</p>	<p>Courts and legal aid providers can use AmeriCorps to provide legal and information services; capacity building, such as recruiting and managing volunteers; completing community assessments; and developing new technology tools, systems, and business processes. Some AmeriCorps members are court-based non-lawyer advocates and navigators, though some programs also include full-time lawyer members.</p> <p>Examples include:</p> <p>California: California JusticeCorps members provide legal information in court-based self-help centers.</p> <p>Illinois: Illinois JusticeCorps members help self-represented litigants navigate the courthouse, provide information about legal aid services, and answer general questions about the legal process.</p> <p>Montana: The AmeriCorps State Justice for Montanans project hosts AmeriCorps members who serve at the Montana Legal Services Association, court-sponsored Self-Help Centers, the Montana Attorney General's</p>	<p>CARES Act: Authorizes CNCS flexibility to ensure members can earn the Segal AmeriCorps Education Awards that they were due to receive before COVID-19 disrupted their service activities, and allows AmeriCorps grantees receiving fixed amount awards to access their full federal funding. Additional flexibilities, e.g. changed service activities, teleservice, documentation of members' illness, and waived match requirements, are available in FAQs on the CNCS website here.</p> <p>AmeriCorps members can be tasked with supporting/developing technology tools.</p> <p>How do you apply? Courts seeking funding for a single-state program apply through their state commission that then forwards it to CNCS. Each state has its own selection process and decides whether to award a subgrant from its formula grant or to put the application forward to CNCS for competitive funding. Organizations should contact their state commissions to receive the</p>
