THE COVID-19 CONTINUITY OF COURT OPERATIONS DURING A PUBLIC HEALTH EMERGENCY WORKGROUP

State Courts Building ■1501 West Washington Street ■ Phoenix, AZ 85007

June 2, 2021

Chief Justice Robert M. Brutinel Arizona Supreme Court 1501 West Washington Street Phoenix, Arizona 85007

Post-Pandemic Recommendations COVID-19 Continuity of Court Operations During a Public Health Emergency Workgroup

Dear Chief Justice Brutinel,

We are pleased to submit the attached *Post-Pandemic Recommendations*, the most recent whitepaper published by the COVID-19 Continuity of Court Operations During a Public Health Emergency Workgroup (Plan B Workgroup). This report is intended to provide guidance to local courts in Arizona about best practices and technologies that should be retained or adapted in the post-pandemic world.

The recommendations in this final Plan B Workgroup whitepaper are based on experience and feedback from Arizona's courts, including a judicial branch survey addressing pandemic and post-pandemic practices. The findings and recommendations can be summarized in five major categories: (1) increasing access to justice; (2) expanding use of technology; (3) jury and trial management; (4) communication strategies and disaster preparedness; and (5) health, safety, and security protocols. The report also attaches the survey used, and responses received, in the appendix.

The Plan B Workgroup was created to provide guidance to judges and court managers to resume day-to-day court operations in the "new normal" caused by an unprecedented world-wide pandemic. Given the significant positive advances in dealing with COVID-19, the Plan B Workgroup is winding down. Although there are a few other matters we are completing, we expect that our last meeting will be held later this month. Plan B Workgroup members also will be presenting a summary of the Workgroup's work, including these *Post-Pandemic Recommendations*, on June 24, 2021 at the Arizona Judicial Conference.

Chief Justice Robert M. Brutinel Page 2 June 2, 2021

The various Plan B Workgroup whitepapers, training and education, and information exchange all were designed to provide local courts additional guidance, in coordination with their respective risk management, human resources, and health departments, to determine which recommendations were appropriate to implement in any specific court or court facility. Plan B Workgroup members have worked hard, in impossible circumstances, to do miracles on a daily basis to allow the courts to continue to administer justice during the pandemic. And the Workgroup met nearly 60 times, over a 15-month period, to fulfill its charge. Plan B Workgroup members are a credit to all of Arizona and are to be applauded and commended for their commitment to public service.

More personally, it has been an honor and a privilege to serve as co-chairs of the Plan B Workgroup. The Workgroup has done much, in a very short time when the need was greatest. Our hope is that the efforts of the Workgroup will have a lasting impact that further strengthens Arizona's courts in the future. It has been a delight to be a part of that effort.

We will make the *Post-Pandemic Recommendations* available to the Arizona Judicial Branch and beyond, as we have with prior Plan B Workgroup whitepapers. Your continuing support of the Plan B Workgroup efforts is deeply appreciated.

Very truly yours,

Samuel A. Thumma Samuel A. Thumma Plan B Workgroup Co-chair Judge Arizona Court of Appeals, Division One <u>sthumma@appeals.az.gov</u> Office: 602-452-6790

Mr. Craig Washburn Court Specialist Administrative Office of the Courts

Executive Summary

In this report, the COVID-19 Continuity of Court Operations During a Public Health Emergency Workgroup ("Plan B Workgroup") makes recommendations about best practices and technologies that should be retained or adapted post-pandemic. The recommendations in this final Plan B Workgroup whitepaper are based on experience and feedback from Arizona's courts, including a survey addressing pandemic and post-pandemic practices. The workgroup's findings and recommendations can be summarized in five major categories:

Increasing Access to Justice – Allowing parties to appear through virtual platforms has significantly increased appearance rates. This practice should continue, where appropriate, post-pandemic. In doing so, courts must remain aware of the "digital divide" and consistently seek opportunities to bridge this gap. Courts should continue public outreach and judicial education through non-traditional means, such as virtual workshops, online trainings, and pre-recorded videos and interviews on particular topics. Courts should also consider permanently expanding alternative and onsite service options, such as self-service kiosks and depository boxes for filing.

Expanding Use of Technology – The rollout of e-filing services in superior court was accelerated and expanded to include more case types, providing flexibility, and reducing foot traffic in courthouses. Courts also creatively employed text messaging and online queuing apps to communicate with litigants and the public. Most courts implemented virtual platforms to conduct court proceedings, and survey results show a profound willingness to accept and retain technology-based platforms for this purpose. The rollout of online dispute resolution to resolve misdemeanor cases in limited jurisdiction courts also was expanded, and several courts implemented the use of artificial intelligence through virtual assistants and chatbots to provide direct assistance and information to the public. Courts should continue to adopt and expand the use of these and other technologies in serving the public.

Jury and Trial Management – Several courts began using technology for jury operations, whether in the form of electronic check-in and pre-screening, electronic jury questionnaires, or jury selection. Some courts explored, and at times implemented, the use of technology for grand jury selection and service, jury trials, and bench trials and to accept exhibits electronically. Courts also implemented expanded alternative dispute resolution pilot programs to resolve civil cases. Courts should continue to adopt and expand these and other innovative jury management efforts.

Communication Strategies and Disaster Preparedness – Courts should maintain a centralized point of contact for current court information for litigants, jurors, and employees. Additionally, there should be periodic meetings between court leadership and court personnel, with other similarly situated courts, and also with stakeholders. Courts also should actively reach out to relevant emergency and disaster relief offices in their respective jurisdictions to be part of planning and communication efforts.

Health, Safety, and Security Protocols – Courts implemented enhanced cleaning protocols during the pandemic and may choose to continue with these modified protocols. This will likely impact operational budgets, which must be weighed with the guidance provided by health officials. Future court health, safety, and security protocols, as well as courthouse design efforts, should be enhanced, flexible, and adaptable.

I. Introduction and Background

Creation and Charge of Workgroup

In March 2020, concern for the spread of COVID-19 caused abrupt changes everywhere, including to the customary practices of Arizona's courts. On March 16, 2020, Arizona Supreme Court Chief Justice Robert M. Brutinel issued Administrative Order (AO) 2020-47, the first AO directing Arizona's courts to conduct business in a manner that reduced the risks associated with this public health emergency. This AO was updated regularly, and others were issued as well, to reapond and adjust to the averaging state of flux that the

respond and adjust to the everchanging state of flux that the COVID-19 pandemic imposed.

Along with many other undertakings, later in March 2020, the Arizona Supreme Court formed the Plan B Workgroup to provide guidance and direction to Arizona's courts. The twofold charge of the Plan B Workgroup was to:

- Formulate recommendations on a transition from emergency operations to the "new normal" for day-today court operations until the resolution of COVID-19, including phased resumption of jury trials and other on-site court operations; and
- Identify and expand best practices supporting core court operations during the COVID-19 health emergency and into the future.

Members of the workgroup were selected, quite intentionally, to represent a wide variety of different perspectives of both urban and rural courts at all levels. Members included superior court and limited jurisdiction court judges, superior court/deputy court administrators, superior court clerks of court and representatives, limited jurisdiction court administrators, Assistant General Counsel of the State Bar of Arizona, the Judicial Education Officer for the Administrative Office of the Courts (AOC), and AOC staff.

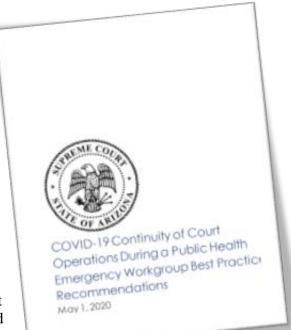

Work Products

The focus of the Plan B Workgroup was to provide guidance to judges and court managers to resume day-to-day court operations in the "new normal," recognizing that local courts, in coordination with their respective risk management, human resources, and health departments, were best situated to determine which recommendations were appropriate to implement in any specific court or court facility. Beginning April 8, 2020, the Plan B Workgroup met weekly to discuss and share information about how Arizona's courts could best navigate the pandemic. The meetings often involved specific agenda items, as well as round robin conversations and information exchange. At times, meetings included outside speakers, such as experts from the National Center for State Courts (NCSC); the Institute for the Advancement of the American Legal System (IAALS); Judges from the United States District Court for the District of Arizona; and others. In total, the workgroup met nearly 60 times over a 15-month period to fulfill its charge.

"Although Arizona's courts remain open for business, cooperation by the Judicial Branch is essential to reducing the risk associated with this public health emergency." AO 2020-47 ("Authorizing

Limitation of Court Operations During a Public Health Emergency") The Plan B Workgroup considered and made recommendations in several areas, including courthouse traffic, in-person proceedings, jury service, jury trials, grand jury proceedings, and the expanded use of technology, including remote appearances by telephone and video conferences, efiling, e-access, online dispute resolution, and other measures to deliver online court services. The workgroup provided best practice recommendations for use by Arizona's courts, including guidance on leveraging technology, staffing and operations, jury management and the "new normal."

As it began its work, the workgroup identified ten guiding principles for its work, listed in its first (May 1, 2020) whitepaper and used as guides in all of its efforts. Some of those efforts were through conversations, starting with a presentation to the Arizona Supreme Court in mid-April 2020. The Plan B Workgroup also published several whitepapers addressing different pandemic-related issues, including:

- <u>COVID-19 Continuity of Court Operations During a Public Health Emergency Workgroup</u> <u>Best Practice Recommendations</u> (May 1, 2020)
- Jury Management Subgroup Best Practice Recommendations During the COVID-19 <u>Public Health Emergency</u> (June 1, 2020)
- <u>Protocol for In-Courthouse COVID-19 Exposure or Symptoms by a Participant in Arizona</u> <u>State Courts</u> (originally issued July 1, 2020 and updated several times to account for changes and clarifications from health agencies, with the current version being 4.0)
- <u>COVID-19 Vaccination Guidance for Arizona Courts</u> (originally issued February 1, 2021, and updated once in version 2.0)

These whitepapers were distributed to all Arizona courts, to national judicial-related and affiliated organizations, and to specific judicial officers around the United States and abroad.

Workgroup members also were involved in significant education and outreach efforts, with presentations to various groups, including the State Bar of Arizona (the Annual State Bar Convention and other programs); local bar organizations throughout Arizona; the American Law Institute (ALI); the Bolch Judicial Institute at Duke University School of Law; the NCSC; the National Association for Court Management (NACM); the American Judges Association; the American Bar Association (ABA); and the New Zealand Judiciary. Workgroup members also will present about the work of Plan B Workgroup at the Arizona Judicial Conference in June 2021 and NACM in July 2021.

Overview of this Report

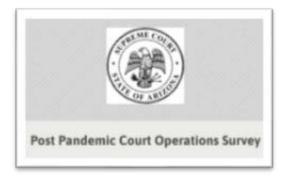

This report represents the final whitepaper by the Plan B Workgroup and reflects the experiences of Arizona's courts, including workgroup members, during the COVID-19 pandemic. The workgroup captured both best practices and "lessons learned" during its weekly meetings. In cooperation with the Arizona Commission on Access to Justice (ACAJ), workgroup members also solicited examples of local court advancements during 2020 that are included in the <u>2020 ACAJ</u>

<u>Annual</u> Report at pages 24-37 ("Selected Access to Justice Advancements Contributed by Arizona's Courts in 2020 and beyond") and were used in preparing this report.

Survey

The workgroup also surveyed Arizona's courts to obtain a broad, statewide perspective about court services during the pandemic and recommendations for the "new normal." The starting point

for the survey was, with permission, a survey used by the Judicial Division of the ABA during parts of November 2020 to February 2021, modified significantly for use with Arizona's courts. The Arizona survey was open from May 3 to May 14, 2021 and had a response rate of 40 percent, with 366 individuals in Arizona's courts responding out of 914 individuals who received the survey. This report includes, in the Appendix, the Arizona survey and responses. The survey results certainly influenced the findings and recommendations in this report.

Survey respondents overwhelmingly worked in trial courts: slightly more than half in superior court; a quarter in municipal court; and just over 20 percent in justice court, with the remainder in appellate courts. [Survey Question (SQ) 2] About 70 percent of respondents were judges (including presiding judges) or court commissioners, with about 15 percent serving as court administrators, and nearly 10 percent serving as a clerk or lead clerk. [SQ 1]

Textual responses to the survey expressed an interest in enhancing the use of pandemicresponse solutions (particularly technology) going forward. The overall view was that technology could be used to enhance safety and access to justice, to decrease failure to appear rates, to better serve the public, and to be more efficient with time and resources. Respondents also expressed a need for more training (for litigants, attorneys, and those within the judicial branch) and technology support, a concern about the digital divide, concerns that technology did not enhance decorum, formality, and courtroom control, and views that remote hearings were not ideal for evidentiary hearings.

When asked what changes were recommended as a result of their experiences during the pandemic, responses ranged from "[a]llow for remote appearances at all court proceedings" to "[r]eturn to normal operations." As the discussion below shows, however, there was substantial support for conducting more hearings remotely in the post-pandemic world. Other selected comments from respondents included:

- "To the extent possible, we should be seeing the court as a service and not a location."
- "We cannot and should not bring back hearings to in-person just because that's always how we've done things."
- "Litigants like [being able to appear remotely] because it reduces cost for travel time and time off work. Attorneys like it because it reduces the problems associated with having to be in multiple courts on any given morning."
- "I firmly believe that if access to justice is the priority of the state court system then remote hearings are appropriate for everything except for evidentiary trials or hearings. These hearings save litigants missing important work and missing school, and allow more litigants to appear who otherwise might not be given limited transportation and other barriers. If we want to make the court accessible to everyone, permitting a great deal more

remote hearings will allow that for the reasons above and will greatly benefit the public who simply cannot take off work or miss school."

• "Excellent opportunity to dramatically expand access to justice!"

Based on these survey responses and the experiences and feedback from Arizona's courts, including workgroup members, this report provides recommendations about what to consider keeping post-pandemic in five major categories: (1) increasing access to justice; (2) expanding use of technology; (3) jury and trial management; (4) communication strategies and disaster preparedness; and (5) health, safety, and security protocols.

In making these recommendations, the Plan B Workgroup recognizes that the status of the pandemic remains fluid and the timetable for resuming "new normal" court operations postpandemic is conditioned on guidance from public health officials. The recommendations are intended to provide a platform for general guidance, understanding that local strategies will vary based on local needs, physical layout, and available resources in Arizona's courts.

In describing some of the innovative measures implemented during the pandemic, this report lists the names of some specific service providers and their technology solutions. While the cited solutions appear to have served the courts well to date, other service providers may offer similar or related technologies. Thus, the workgroup does not endorse or specifically recommend the services of any of the specific service providers, or their technology solutions listed in this report. Indeed, the workgroup recommends that local courts consider the full array of available service providers in the acquisition of technology and other vendor services, following applicable policies for procurement and contract administration. (Arizona Code of Judicial Administration § 1-402)

II. Increasing Access to Justice

Navigating through the pandemic required Arizona courts to remain acutely attentive to the balance between promoting the health and safety for all and maintaining meaningful access to

justice. Through a combination of resourcefulness, collaboration, and innovation, courts identified and rapidly implemented a series of sensible measures in a matter of weeks and months. Access to justice initiatives involving public outreach, education, technological advancements, and stakeholder collaboration progressed well beyond their pre-pandemic trajectories.

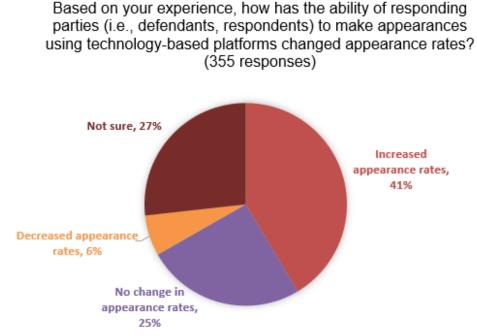

The survey results, as well as data collected during the pandemic, suggest the power that using technology to allow individuals to

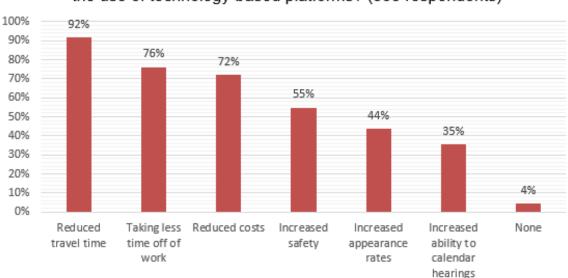

Excellence (2019 – 2024)

appear in court hearings will have post-pandemic. When asked, based on their experience, how the ability of responding parties (such as defendants and respondents) to make appearances using technology-based platforms changed appearance rates, more than 40 percent of respondents said it increased appearance rates, while about 25 percent indicated there was no change. Only seven

percent of those responding said that expanded use of technology decreased appearance rates, while about one in four of the respondents was not sure. [SQ 11]

The survey responses also asked respondents to rate the perceived benefits for litigants, attorneys, and other court participants from the use of technology-based platforms, illustrated below. [SQ 12]

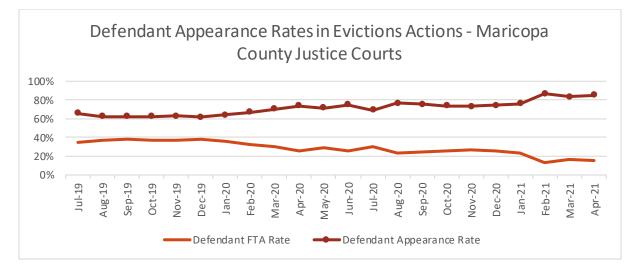

Based on your experience, what benefits have litigants, attorneys, and other court participants experienced through the use of technology-based platforms? (353 respondents)

When asked, based on their experience and looking into the future, to what extent they foresee the continued use of various court technologies after the pandemic recovery, respondents indicated the following: [SQ 13]

| Based on your experience, looking into the future, to what extent do you foresee the continued use of the following court technologies after the pandemic recovery? (361 | | Somewhat | | Somewhat | Very |
|--|-------------|----------|----------|----------|----------|
| respondents) | Very Likely | Likely | Not Sure | Unlikely | Unlikely |
| Electronic filing of documents | 87% | 6% | 5% | 1% | 1% |
| Online cash payments | 78% | 7% | 14% | 1% | 1% |
| Digital signatures | 77% | 12% | 7% | 2% | 3% |
| Off-site cash payments, e.g., PayNearMe | 59% | 11% | 27% | 2% | 2% |
| Drop boxes | 50% | 15% | 27% | 3% | 5% |
| Remote program services, e.g., court- ordered treatment or educational programs | 48% | 21% | 25% | 5% | 2% |
| Live video streaming of court proceedings for | | | | | |
| some case types | 47% | 22% | 17% | 4% | 10% |
| Digital evidence | 45% | 22% | 22% | 5% | 6% |
| Online Dispute Resolution (ODR) | 39% | 19% | 34% | 4% | 5% |

While many challenges specific to the pandemic will subside, courts are encouraged to retain the sense of urgency and momentum recently achieved in mitigating access to justice impediments. With significant emphasis on employing and expanding technology, it is recommended that courts remain mindful of the digital divide (the gap between those who have ready access to technology and the internet and those who do not) and actively seek opportunities to bridge this gap. Rural communities may not have the same access to internet services, and subgroups within the population may not have the necessary equipment, cell phones, or computers to use court-affiliated technology options. Courts should continue to consider the limitations of their users to better assist those in need of accurate and timely information about a pending case.

The ability of technology to increase access to justice is profound. One data-based example is the appearance rates in eviction actions filed in the Maricopa County Justice Courts. Before the pandemic, in more than one-third of evictions actions, the defendant failed to appear. In 2019, for example, the failure to appear rate in such cases ranged from one-third to approaching 40 percent. After implementing remote appearance options, failure to appear rates decreased significantly, to as low as approximately 13 percent in February 2021. The change in appearance rates is shown below:

The number of eviction cases that were filed dropped significantly during this period, from about 6,000 filings in July 2019 to less than 1,500 in May 2020. However, this remains a powerful example of how changes implemented during the pandemic increased access to justice and, if retained, provide the potential to do so in the future.

Public Outreach and Judicial Education

Engaging with the public and providing information about the judiciary throughout the pandemic required courts to develop new communication channels, redirect educational resources, and actively promote awareness of rapidly evolving court services. Many courts and other organizations expanded their public outreach offerings through virtual "Town Halls," "Open Houses," and "Legal Talks." The resulting benefits were not only public awareness of what to expect, but also a reassurance that the courthouse will be safe under existing health protocols.

Law libraries and resource centers throughout Arizona pivoted to keep serving customers through limited-capacity onsite assistance, curbside pickup of resources, live web chat, telephone help, and email. The Maricopa County Superior Court Law Library Resource Center (LLRC), for example, provided phone and video capability for litigants applying for and securing protective orders and emergency orders who could not otherwise appear virtually in court.

The AOC expanded online content available through the <u>Self-Service Center Legal Info Hub</u>, which provides bilingual resources to the state's growing number of self-represented litigants. Enhanced material available through the Legal Info Hub includes an extensive FAQ section, podcasts, legal information videos, and legal information sheets.

Consistent and tailored judicial education became necessary given pandemic-related challenges, especially in

eviction actions. The Maricopa County Justice Courts developed a robust outreach and educational response which included:

- Playing a key role in statewide trainings for judicial officers on eviction procedures.
- Judges and the courts' Public Information Officer participating in more than two dozen online events related to evictions and court changes because of the pandemic. These events were a mixture of local community meetings, national nonprofit sponsored forums, media interviews, government official briefings, and more. Some of the events were in Spanish.
- Making available to the media videos and interviews with constables regarding eviction procedures.

The Best Practices Committee of the Maricopa County Justice Courts also created a written Best Practice on Disposition of Eviction Matters During the Pandemic manual and amended it many times throughout 2020 in response to related orders and guidance from state and federal officials. As other examples, the Pima County Consolidated Justice Court, the Superior Court in Mohave County, the Apache County Justice Courts, and others have publicly available information about evictions and the eviction process.

- <u>https://www.jp.pima.gov/Info/CaseTypes/Evictions.html</u>
- <u>https://www.mohavecourts.com/justice/jcss_evictions.html</u>
- <u>https://www.apachecountyaz.gov/Justice-Courts</u>

The Superior Court in Maricopa County's Family Court bench held judicial training sessions by remote technology over the lunch hour to address specific topics, such as agreements in family

court cases, handling cases involving children who are resistant to parenting time, and new protocols for courtordered settlement

conferences. These training sessions allowed the Family Court bench to continue their education at a time when gathering in person was not an option.

The Superior Court in Pima County created a video, "<u>How Pima County Superior Court is</u> <u>Protecting Your Health During COVID-19</u>," to advise the public about what to expect when coming to the courthouse, cleaning protocols, and to provide reassurance that the court is committed to protecting the health of those involved in court proceedings and ensuring access to justice.

Other outreach efforts included the development of the Scottsdale Community Intervention Court, creating partnerships with local community social services and behavioral health services for a specialized calendar, and helping participants connect to community social services and with resolving criminal charges.¹

Alternative and Expanded Onsite Service Options

Promoting public health and safety during the pandemic required courts to implement solutions that were designed to limit the number of people in court facilities. Although courts were able to advance remote service offerings, there is a continuing public need for onsite accessibility to court services. Whether as a result of court requirements, digital resource limitations, personal preference, or other factors, many court users depend on traditional onsite services to access justice.

Courts are encouraged to continue to seek opportunities to provide and publicize onsite services through self-service options that are widely available, such as physical depository or drop boxes, self-service kiosks, and additional customer service windows. Self-service options are particularly advantageous during periods of staffing shortages and peak customer volumes. They also can be helpful if they can be accessed online, without the need to physically be inside a courthouse.

Courts should continue to urge attorneys and litigants to submit documents via electronic transmission by e-filing whenever possible. For cases involving paper filings (including documents that cannot be e-filed), courts are encouraged to provide secure depository boxes located outside the courthouse. Courts using a depository box should have a policy on their website and posted at the depository box that details how the documents placed in the depository box will be processed. For example:

• How often the depository box will be checked by court staff and documents removed

¹ <u>https://www.scottsdaleaz.gov/Asset84350.aspx</u> at page 2; <u>https://webadmin.azmag.gov/Portals/0/Documents/Homelessness/Homeless-Municipal-Best-Practices-Report-2020-FINAL.pdf</u> at 48.

- The cut-off time for filing a document for a document to be considered filed the "same day" or filed the next day
- How to include a payment with the document deposited and what payment methods are acceptable

Courts should check depository boxes and remove filings at least twice a day, once at the open of business and once at the close of business. Courts also should promptly process documents filed and contact the filer if there are problems with the filing, payment for the filing, etc.

III. Expanding Use of Technology

During the pandemic, Arizona courts quickly implemented an array of court technology solutions, providing enhanced access to court services. Beyond pandemic safety considerations, the expanded use of online court technologies leads to improved customer service and efficiencies in internal court operations. Many of the re-engineered processes and supporting technologies appear to be scalable for widespread use, bringing about economies of scale.

Given these benefits, the workgroup recommends that many of the re-engineered business processes remain in place and that some be expanded after the pandemic recovery. Applicable court rules and policies should be amended as necessary to support the continuing deployment

of these court technologies. The following highlights some of those court technologies that merit consideration for use and expansion in the post-pandemic world.

E-Court

In response to the pandemic, e-filing services in the superior court were accelerated and

expanded as quickly as possible. Before the pandemic, the statewide e-filing application supported only the general jurisdiction (GJ) civil filings. Using the technology platforms already in place, e-filing support was expanded to include five more case types within a four-month period. These new services were made available to all superior court locations (see table below). E-filing functionality was also expanded to support judicial filings submitted through the e-Bench application for all

GJ case types. Virtual trainings were offered remotely eight to ten times per week during implementation.

The e-filing expansion provides the superior court with a means to continue accepting filings without requiring litigants to appear in person, thus reducing in-person contact while supporting clerk review and docketing functions. These services also provide flexibility for attorneys, litigants, and clerk staff, and provide judicial staff the ability to work remotely. Enabling this type of interaction between the stakeholders was largely made possible through the authorizing AO's,

particularly the permission to accept electronic signatures. The AOC intends to continue implementation to enable other case types and enhance functionality in the coming months.

Below is the status of the e-filing rollout in the superior court, with check marks showing that e-filing has been implemented for the specified case type and the "P" marks showing that e-filing is pending implementation.

* Non-case initiation filings only.

** E-filing in criminal and juvenile cases in Maricopa County is supported locally.

Signatures in Family Court Filings

Administrative Order 2020-59, issued April 3, 2020, allows the attachment of a copy of a government issued identification instead of a notarized signature for documents filed under Rule 14(a) of the Rules of Family Law Procedure. Further, those with protected addresses may redact

the address information from the filed copy. This action has helped maintain access to justice during the pandemic by allowing self-represented litigants and attorneys to file documents with the Clerks of the Superior Court through depository boxes and mail, and has allowed the Department of Economic Security, Division of Child Support Services (DES-DCSS) to keep accepting applications for services.

The workgroup recommends retaining these provisions in AO 2020-59 to allow these practices to continue until rule changes can be proposed.

Expanded Use of Text Messaging Communications and Online Queuing Apps

Text messaging services are available through a statewide services contract procured by the

AOC. Some courts send text reminders to litigants regarding court hearing dates, financial payment options, failure to pay, and failure to appear. The workgroup recommends that courts expand the current use of text messaging to advise litigants of alternative hearing arrangements (e.g., video hearings, telephonic hearings, rescheduled hearings, etc.), the availability of online dispute resolution, remote ecourt services, and alternative court locations. Text messaging reminders and communications should be implemented by all courts as a best practice, which has shown a reduction in failure to appear and failure to pay rates.

With the advent of COVID-19, the courts faced a quandary over limiting the number of individuals in the courthouse to maintain social distancing, while still providing services to individuals needing access to the courts. As practical facility-based solutions developed, one of the actions taken was to contract for a statewide, automated, and mobile-based customer queuing system. Through the standard procurement process, the AOC entered into a contract with WaitWhile – one of many available queuing applications – to make this service available across the state. This service is a cloud-based Virtual Queue Management solution used to eliminate physical lines, improve the waiting experience for customers, and reduce wait times overall.

This system is made available to all courts, both limited and general jurisdiction, to help reduce crowding in the courthouse by allowing litigants to virtually "get in line" by computer or by their mobile phone, and not come into the facility until they can be served. Litigants can then go directly to a specific location to appear in court rather than gathering and waiting in the lobby.

End users can configure which contact information to collect, how to manage a virtual queue

of customers, and send text or email notifications. The system also allows end users to use a basic user interface to manage a self-serve experience for customers to enter themselves into a virtual queue. The system provides basic facility capacity counting, with data to show how long wait times are.

The enterprise solution procured includes significant functionality for the courts, including:

| Service | # Waiting | Avg. Wait | | | |
|-------------------|-----------|-----------|--|--|--|
| Cashier | 0 | 0:00:00 | | | |
| General Questions | 0 | 0:00:00 | | | |
| Post Bond | 0 | 0:00:00 | | | |
| Protective Orders | 1 | 0:00:43 | | | |
| Submit Documents | 0 | 0:00:00 | | | |

- Multiple locations Courts can create and manage multiple waitlists
- Message clients Send SMS/Emails
- Team notifications Send SMS/Emails to team on guest updates
- Dashboard of status use and client information

Trial courts in various Arizona jurisdictions have implemented this service and are looking to use the solution well beyond the pandemic.

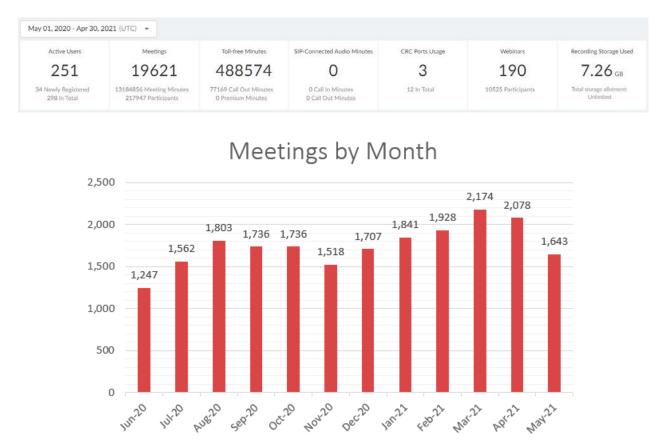

The Scottsdale City Court adopted paging technology (analogous to that used in restaurants to notify patrons that their table is ready) to ensure social distancing by limiting the number of people entering the courthouse at any one time. Court visitors checked in at the front of the courthouse, shared their reason for being there, and were handed a pager that signaled when they should return and enter the courthouse. This allowed visitors to appropriately social distance while they waited, without fear that they might miss being called for their court appearance.

Remote Hearings

Given the pandemic, remote court appearances are now being conducted (and have been conducted for months) in a wide array of case and hearing types (e.g., orders of protection, injunctions against harassment, juvenile court proceedings, civil pretrial proceedings, criminal arraignments, emergency family court matters, etc.) by telephone and video-conferencing technologies offered by several providers.

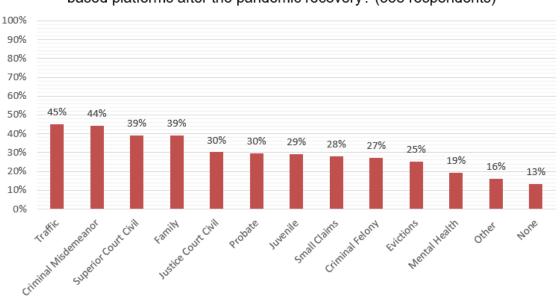

More than 200 Zoom licenses were issued to court personnel, statewide, with another 90+ issued to AOC employees, with the following usage:

The survey results provided additional information for the workgroup in making these recommendations. More than 90 percent of the respondents had conducted or been a part of a court proceeding that used a technology-based platform (both remote audio and video platforms like Zoom®, Microsoft Teams®, WebEx®, etc., and conference call lines). [SQ 3] For such remote

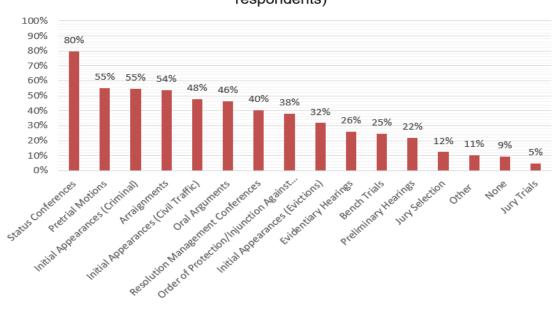

proceedings, about 60 percent had experienced technical disruptions frequently or occasionally, with a quarter of the respondents saying such disruptions occurred rarely. [SQ 4] When such technical difficulties occurred, more than 80 percent of respondents said that it took no more than several minutes to resolve the problem, and the proceeding then resumed. [SQ 5]

When asked what types of cases courts should continue to use such technology-based platforms after the pandemic, respondents provided the following information: [SQ 6]

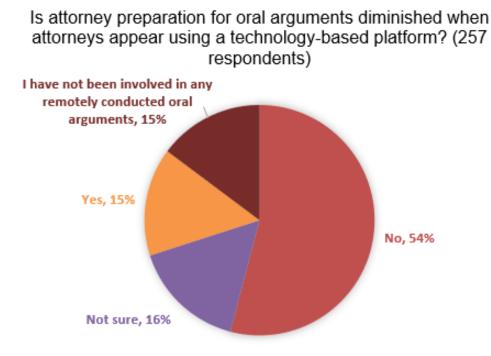

For which case types should courts continue to use technologybased platforms after the pandemic recovery? (358 respondents)

When asked which proceeding types courts should continue to use such technology-based platforms after the pandemic, respondents provided the following information: [SQ 7]

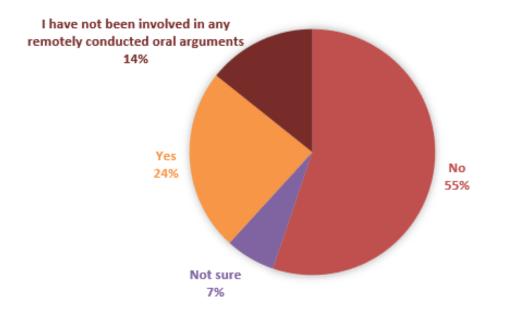

For which proceeding types should courts continue to use technology-based platforms after the pandemic recovery? (361 respondents)

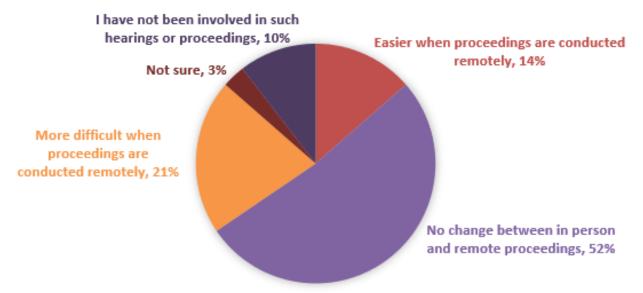

The survey also asked questions of judicial officers only [SQs 18-21], with the following results:

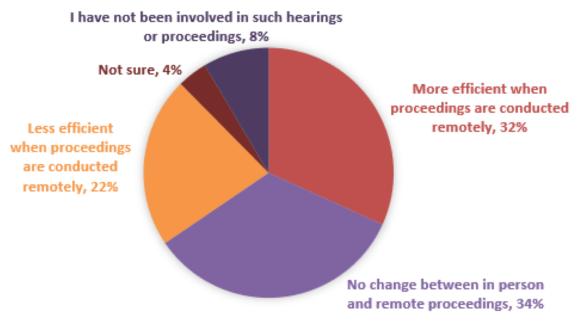

Is attorney effectiveness diminished in oral argument when attorneys are not physically present? (259 respondents)

In your opinion, how has your preparation changed for motion hearings or other proceedings when using a technology-based platform? (258 respondents)

In your opinion, how has your efficiency changed for motion hearings or other proceedings when using a technology-based platform? (258 responses)

Although not unanimous, these survey results show a profound willingness to accept and retain (and perhaps expand) the use of technology-based platforms to support remote hearings following the pandemic, for the benefit of both judicial officers and other court participants involved in such proceedings.

The workgroup recommends that courts:

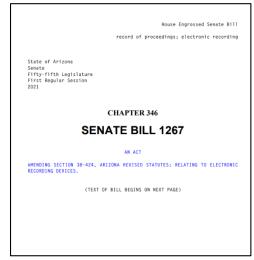

- Explore the continued use and expansion of technology to remotely conduct court proceedings that previously would have been held in person, including the use of AOC-secured statewide licenses for video conferencing services for court hearings, meetings, and educational programs.
- Examine options for remote interpreter services through the expansion of technology, as well as ensuring that critical services provided in English are also provided to Limited English Proficient participants.
- Explore the livestreaming functionality of these platforms, including platforms that allow for video livestreaming, which can be used for public viewing of court proceedings, as well as remote interpreter services. Most of the conferencing systems have electronic recording capacity, which can be used to make the verbatim record of court proceedings where permitted, and some systems also support online interpreter services.

Electronic Recording of Court Proceedings

Production and preservation of a record of proceedings in a court of record are fundamental

functions of the judicial branch. Administrative Order 2020-60 (Apr. 6, 2020) made provisions for courts to use electronic recording to allow for additional flexibility to create the verbatim record. Senate Bill 1267, signed into law by Governor Ducey on May 7, 2021, amends A.R.S. § 38-424 to allow for similar flexibility. This legislation, which will become effective later this year, allows local courts to decide whether to use electronic recording devices, with exceptions, in lieu of a court reporter or stenographer to create the verbatim record.

Additional measures to electronically record court proceedings should be considered in the future. For example, Court Connect is a new program being used in the Superior Court in Maricopa County. The integrated program runs on Microsoft Teams® and For The

Record's (FTR's) Virtual Justice software. The court's internal technology department and a pilot team of judges from all departments worked with the vendors to deliver a first-of-its-kind online hearing program.

With the Court Connect program, participants can appear for hearings online rather than coming to the courthouse in person. Attorneys and parties are notified of hearings by email, which includes details about how to join the hearing online or by phone. To participate in such a hearing online, a computer or smart device (phone or tablet) with a web camera, speakers, and microphone are needed. If these are unavailable, participants may attend the hearing by phone using the phone number provided in the email notice. The court can provide remote access to hearings, livestreaming for public access, and an integrated process for preserving the official record. Other Arizona courts are participating in Court Connect pilot programs or have expressed interest.

Accounting for and Minimizing the Digital Divide

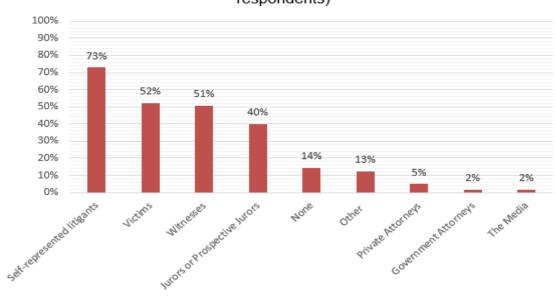

The pandemic provided a reminder that there is a digital divide, highlighting that such a gap in resources prevents many people from adequately engaging with courts. Responding to the pandemic required courts to embrace an accelerated model of

technology development, which not only promoted public health, but also yielded countless advancements that will positively impact access to justice. As beneficial as expanded remote court services are, those court users on the other side of the digital divide are limited in their ability to follow this online migration.

The survey clarified the need to minimize the digital divide, and to enhanced awareness of the issue. One question [SQ 9] noted that a digital divide "occurs when some court participants do not have the computing equipment and/or network bandwidth needed to use

technology-based platforms for remote court appearances." Based on their experience, respondents were asked to identify to which groups they thought the digital divide will pose a barrier for continued use of technology-based platforms after the pandemic, either because of a lack of access to computing equipment or adequate network bandwidth. Respondents were asked to check all that apply and answered as follows:

Based on your experience, to which groups do you think the "digital divide" will pose a barrier for continued use of technology-based platforms after pandemic recovery? (359 respondents)

When asked whether their court had taken any steps to address the digital divide (like creating a designated location to appear remotely, providing hardware, data cards, etc.), a quarter of respondents said yes. Over a third said "no," nearly 20 percent were "not sure," and nearly 20 percent said "[t]his was not an issue in my court." [SQ 10]

During periods, such as the pandemic, where traditional onsite accessibility is interrupted or limited, the consequences of inadequate digital resources are even more pronounced. Arizona

courts remained aware of the digital divide during the pandemic and sought solutions to bridge court users to remote services and court proceedings. Courts should continue to account for and actively pursue opportunities to minimize the digital divide, such as:

- Broadband Access
 - Courts should explore opportunities to provide public Wi-Fi internet access within or near court facilities, or other public facilities such as libraries.
 - Courts should explore purchasing data plans or providing reimbursement for data plans that can be provided to prospective jurors who otherwise would be unable to participate remotely in jury selection.
 - Courts should explore and promote public-private partnerships or programs that offer reduced or no cost internet access to eligible users.
- Access to a Device
 - Courts should seek opportunities to provide onsite access to computers or other devices to court users. Solutions may include the placement of self-service kiosks in surrounding community locations. In doing so, courts should ensure that kiosks are "cleaned" of the previous user's information after they have stepped away.
 - Courts should explore local or public-private programs that provide broadband-enabled devices to court participants.
 - Courts should explore providing on-site remote appearance rooms for the public who would not otherwise have access to technology.
 - Courts should ensure that court applications, websites, and electronic forms are mobile device friendly and compliant with the Americans with Disabilities Act (ADA).
- Digital Knowledge / Literacy
 - Courts should create simple plain language guides, in English and Spanish, that provide easy-to-follow instructions for all applications and platforms.
 - Courts should host or partner with community-based agencies to provide technological awareness and training offerings.
 - Courts should provide high-availability alternatives to digital platforms, e.g., depository boxes, off-site cash payments, etc.

For jurisdictions implementing newer, remote technology, it is also important to assess the capabilities of end users to effectively use the new platforms. Gathering data about the individual users should extend beyond gathering basic contact information. To succeed, courts must have sufficient information about the end users' experience to facilitate successful use of the platform. The NCSC published *Digital Divide Considerations: A Pandemic Resource from NCSC* in September 2020 that local courts may find useful when considering the effects of the digital divide.

Virtual workshops

During the pandemic, courts undertook or participated in various virtual education efforts. Many courts conducted online workshops, training, and informational sessions, at times in conjunction with local libraries or resource centers.

The AOC delivered an array of virtual educational programs for judges and court staff. Using a virtual platform, the AOC's Education Services Division, provided or supported the following,

all of which resulted in evaluations indicating they were very well received:

- Nearly 80 supported classes from March 27, 2020 to April 2021, with nearly 3,900 participants, on various relevant topics
- Juvenile Justice Services Division offered 20 programs, with an average of 65 participants per class and a high of 188 participants
- Court Leadership Institute of Arizona offered 9 classes, with an average of 21 participants per class
- Adult Probation Services Division offered 11 academies, with an average of 18 participants per class

Given these results, it is recommended that planning for educational programs include virtual educational programs for selected courses after the pandemic recovery. This is particularly true if various technologies are retained post-pandemic and participants will be asked to (or have the ability to) use those technologies during court proceedings, or in efforts leading up to or following court proceedings. This mode of program delivery may be especially helpful for time-sensitive course offerings and courses of a brief duration, e.g., an hour-long educational program on new legislation impacting the courts. Education planning should consider the efficacy of both in-person and virtual programs, or "tape-delayed" delivery based on course content, travel costs, and participants' time away from regular work duties.

Online Dispute Resolution

Online Dispute Resolution (ODR) programs provide additional remote services needed by courts, both during the pandemic and beyond. Online Dispute Resolution is live in five courts and is currently being expanded to more than twenty additional courts, supports the online resolution of criminal misdemeanor cases in limited jurisdiction courts. The use of the current ODR program is free to the public and allows users to negotiate and resolve misdemeanor cases online without having to appear in person at the courthouse. The ODR project came at a time where courts throughout the state were under directives to reduce the number of in-court hearings to ensure the safety of both the public and court staff.

The ODR program allows an individual cited with a misdemeanor charge to virtually attend their first hearing, be advised of their rights, and enter a plea. It offers the ability to negotiate a possible plea agreement with the local prosecuting agency and electronically route documents through the platform. Eligible parties are notified by the court by text message to register and participate. The program, which was contracted through an emergency procurement process, is available to the parties 24 hours a day through either a

computer or a mobile device.

Online Dispute Resolution (ODR) for Misdemeanor Cases in Arizona Courts

Courts should seek to

implement ODR where feasible, in coordination with their local prosecuting agency. Courts that implement ODR should make information widely available in the courthouse and on their webpage so that individuals are aware of the program and do not mistake notifications for spam.

Off-site Cash Payments

In March 2020, the AOC launched an innovative cash payment service for court customers through the PayNearMe® network at retail locations throughout the state and nation. Payments can be made at over 27,000 nationwide retailers such as 7-Eleven, Family Dollar, and other

participating stores at any time, including nights, weekends, and holidays. To use the network, customers receive a barcode from their collection notice or the AOC's statewide payment website www.azcourtpay.com. Once payment is received by the retail location, it displays in the court's case management system within 30 minutes and is receipted into the court's bank account within three business days.

The initial project focused on making cash payments easier for all, an important tenant of the Arizona Supreme Court's

strategic agenda and Fair Justice Initiative. But when implementation began, limitations to on-site court services occurred because of the pandemic, and having options to conduct business outside courthouses became a high priority. As an alternative to entering a courthouse, the PayNearMe® network emerged as a safe, timely, and user-friendly payment option during the pandemic, benefitting both the court and the public. The introduction of this cash payment option complimented the popular Online Citation Payment Program (OLCP) which allows customers to make credit/debit card payments using a statewide payment portal www.azcourtpay.com. Both payment options stand to continue providing customers with convenience and flexibility long after the pandemic has subsided.

Artificial Intelligence

Operating through the pandemic provided an opportunity to accelerate implementation and expand the use of artificial intelligence (AI)-enabled technology. COVID-19 presented courts with significant obstacles to providing direct public assistance and information. These communication challenges were compounded by limited facility access, pandemic-related staffing shortages, and rapidly changing court protocols. Development and investment in AI solutions proved particularly useful in mitigating these factors by providing an increased availability of remote assistance, ensuring on-demand access to consistent and accurate information, and supplementing court staff capacity.

Employing varying degrees of AI technology, both through virtual assistants and chatbots, can streamline interactions between the public and courts, thereby improving the customer experience and freeing up personnel resources. Built on IBM Watson's platform, the Maricopa County Clerk's Office developed an AI-enabled virtual assistant that provides 24/7 accessibility to the office through text, email, phone, web chat, and smart devices, and live assistance was available to users during normal operating hours. This solution resolved more than 65 percent of conversations independent of human agent assistance.

The Scottsdale City Court extended customer service by implementing a chatbot, which also allows for customers to connect online with a live court clerk during business hours. This allows customers to readily obtain streamlined information on a wide array of topics, including making payments, obtaining protective orders, filing documents, and attending defensive driving school. Ultimately, comparable AI systems can provide courts with the ability to field and typically resolve public inquiries anytime, anywhere, and on any device. Analytics provided by AI platforms also provide valuable insight into trends on questions or concerns from the public, thus providing a clearer understanding of evolving needs, particularly during stressful or atypical circumstances.

Intelligent Capture, another AI technology, provides an opportunity to create operational efficiencies across the Judicial Branch and improve the customer experience by allowing courts to capture data directly from scanned paper or electronic filings. Using optical character recognition (OCR) and AI, Intelligent Capture allows case numbers, filing dates, and document titles to be extracted from the document images and used as metadata to automate workflows and integrate with case management systems. Expected outcomes from Intelligent Capture include reduced processing time of filings, elimination of document data entry by customers at the time of e-filing, and the development of processes that support virtual workforces. Adoption of Intelligent Capture, at least in pilot form, is anticipated in the near future in Arizona courts.

IV. Jury and Trial Management

Arizona courts responded to COVID-19 in many ways, with an emphasis on balancing public health and safety with access to the court. Throughout the pandemic, courts and jury commissioners implemented revised procedures that allowed courts to continue with jury operations, although in a more limited fashion. Many of the revised procedures have increased efficiency in jury selection and trials, have been widely accepted, use time more effectively, and appear to have been appreciated by both potential jurors and sitting jurors. One of the significant lessons learned during the pandemic is a reminder that jurors are extraordinary. Despite the many changes and uncertainty about the effect of COVID-19 on serving on a jury, potential jurors continued to respond to summonses and report to courthouses. When selected for trial, jurors were cooperative and engaged. The juror experience looks different in a pandemic, but the fundamental purpose and experience remains largely unchanged.

The survey responses were instructive on the use of technology-based platforms related to jury service. Sixty percent of those who responded said that juror screening should include the use of technology-based platforms after the pandemic recovery. Nearly a quarter of those responding indicated such technology should be used for jury selection (voir dire), while only five percent responded that such technology should be used for jury trials. For grand juries, nearly 20 percent said that technology should be used for grand juror selection, and nearly 10 percent indicated it should be used for grand jury proceedings. That said, nearly 40 percent indicated that technology-based platforms should not be used for any juror service functions. [SQ 8]

Jury Reporting, Selection, and Service

Some Arizona courts are likely to continue to use technology to facilitate jury selection in some fashion. During the pandemic, many Arizona courts have used technology to conduct some aspect of jury operations, whether in the form of electronic check-in and pre-screens, electronic jury questionnaires, or jury selection.

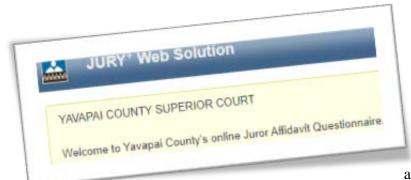

Courts have experienced different juror response rates throughout the pandemic, and jury commissioners and clerks of court have continued to allow deferrals or postponements as a

preference to excusal from service. Administrative Order 2020-172 (Nov. 4, 2020) provided guidance regarding when a juror's service obligation is fulfilled, including authorizing resummoning potential jurors who had previously been summoned. This AO noted that, in several counties, the number of postponements and excusals were sufficient to reduce the number of prospective jurors to less than was needed to schedule jury trials.

Moving forward, courts should consider re-evaluating the pandemic deferral policies and adopting long-term policies that allow for flexibility to respond to spikes in the transmission of diseases, increases in hospitalizations, and other public health considerations. In the context of COVID-19, courts may want to consider the extent to which vaccinations and modified public health recommendations mitigate the need for continued deferrals.

Courts that adopted deferral policies recognizing school and daycare closures may want to reevaluate whether those considerations remain applicable. Courts also will need to evaluate the point at which the modified policies may no longer apply. For example, courts that expanded their deferral or release policies related to healthcare or other essential workers will need to consider when to modify those policies, including possibility reverting to pre-pandemic assessments or similar policies. Alternatively, courts may wish to consider adopting policies that build in flexibility and allow for a nimbler response to changes in the community. For example, a policy that allows for flexibility may be most appropriate in the context of healthcare providers, first responders, hospital workers, care providers, vulnerable populations, etc.

Many courts have adopted a more robust pre-screening process for jurors who are asked to serve. For example, in the Superior Court in Maricopa County, all jurors can complete a prescreening for jury service by filling out an online questionnaire (and jurors who lack access to the online questionnaire can fill out the survey onsite). Several days before the reporting date, the electronic questionnaire responses are reviewed by a judge who either grants or denies requests from jurors seeking a hardship release or other deferral. Those who are released are notified of that decision in advance of the reporting date. The process is completed electronically and reduces the number of jurors required to report in person.

Some courts, such as the Superior Court in Yavapai County, elected to use juror questionnaires that are provided to jurors by mail or email before the trial date. Like the electronic pre-screen process, trial judges have reported increased efficiency and speed in selecting petit juries where questionnaires are used. Those courts that adopted

robust pre-screening processes have reported significant efficiencies in jury selection. The increased efficiencies are reflected in: 1) a reduced number of potential jurors who need to report to the courthouse; 2) fewer jurors participating in jury selection only to be released for a hardship; and 3) reduced time to complete jury selection.

Additional considerations should be given to refining questionnaires and making any prescreen process more accessible to those with issues created by the digital divide. The increased efficiencies from the pre-screening processes will assist courts in more timely addressing the backlog of trials. It also will enhance the jury service experience. The traditional practice of having large groups of jurors report to the courthouse for jury selection was not practical and created enormous social distancing and related issues during the pandemic. Given social distancing recommendations and related space limitations within the courthouse, courts adjusted their reporting practices for both petit and grand juries to accommodate smaller groups with staggered reporting times. Planning for staggered reporting times allows the jury officer to ensure that staff is available to direct jurors appropriately and social distancing is maintained. Juror feedback confirms that the attention to physical distancing has helped make jurors feel more comfortable when reporting for service.

Other efforts to enhance social distancing for jury selection and service during the pandemic included:

- Partnering with a local unit of government to secure access to adequate space to improve juror access
- Conducting trials at City Hall
- Building a Juror Reporting Center at the court or near the court that allows social distancing and keeps jurors in one building for their entire service to allow for one stop
- Working collaboratively with the city prosecutor and public defender, who share space in the building with the court, to ensure health and safety protocols and manageable court calendars

• Reconfiguring jury boxes and public viewing areas to allow for adequate social distancing Along with these measures, courts also have been reluctant to take specific action directed toward potential or actual jurors who fail to appear for jury service during the public health crisis. Courts may wish to consider returning to pre-pandemic procedures for handling failures to appear for jury service as vaccines become more widely available, emergency orders are lifted, other health-related restrictions are lifted, and access to the court is no longer restricted.

Remote Grand Jury Selection and Service

Some courts have used technology for grand jury proceedings. In April 2020, the Superior Court in Mohave County started using Zoom® to conduct grand jury proceedings. The grand jury in place at that time had been empaneled in-person shortly before the statewide emergency was declared, having almost 120 days of remaining service before its end date. While the grand jurors

appeared in person for a few weeks before the Governor issued the stay-at-home order, they were advised that future sessions would be conducted remotely, and that instructions and call-in information would be sent to them. The court advised the grand jurors that although the proceedings would take place remotely, the proceedings would remain confidential. The court then emailed or mailed each grand juror an instruction sheet with information explaining how to download the software to participate remotely.

While some courts will likely continue to use technology to conduct grand jury proceedings, others may either continue with (or return to) in-person proceedings. Some benefits of remote grand jury proceedings, however, include increased access, better attendance, and less travel time for jurors. Disadvantages may include diminished live interpersonal interaction and discussion, technology challenges, digital divide concerns, and security concerns.

As the remote options become more accessible, courts should continue to evaluate the strength of the technology platforms and should ensure that they are configured to safeguard required secrecy of grand jury proceedings and deliberations with appropriate security measures to ensure confidentiality and privacy.

Courts may wish to consider the following as part of adopting policies for remote grand jury proceedings:

- Electronically signed non-disclosure agreements
- Recording procedures
- Court reporter participation
- Juror instructions
- Staffing and facilitator requirements
- Security protocols
- Standard admonishments
- Written acknowledgements from grand jurors about the admonishments, instructions, protocols, etc.

Remote Jury Trials

The Superior Court in Mohave County has embarked on a pilot program to conduct remote civil jury trials authorized by Arizona Supreme Court AO 2021-50 (Apr. 14, 2021). Mohave County anticipates one civil division will use a remote platform to conduct remote civil jury trials during the pilot program. The pilot program includes outside funding for laptops and cradle point devices to help ensure trial participants without ready access to needed technology can participate in the jury selection process and trial remotely.

The Superior Court in Maricopa County is planning to conduct a similar pilot program for remote civil jury selection. The pilot will evaluate not only the efficiencies and advantages of remote selection, but also whether, and to what extent, remote selection may influence securing a fair cross-section of jurors. Like the Mohave County pilot, the Maricopa County pilot will include providing appropriate hardware, software, and internet access.

During the midst of the pandemic, the Superior Court in Maricopa County conducted remote jury selection and trial simulations which resulted in relevant data: 23 percent of participants reported that their candor was somewhat or greatly increased by participating remotely rather than in person. Of those responding, 89 percent reported that it was very easy to stay attentive during selection. For those who participated in a remote trial, 100 percent reported it was easy to stay attentive during trial. These findings support further evaluation of whether, and to what extent, courts should expand the use of remote jury selection and remote jury trials.

Arizona courts continue to evaluate how and whether to adopt remote jury trials as an option for court participants. Many courts have been reluctant to proceed with remote criminal trials given constitutional concerns. While the focus remains on increasing opportunities for remote proceedings for civil trials, the data gathered from the civil experience may support expanding the use of remote proceedings in criminal trials. For example, allowing the community to participate remotely in jury selection may facilitate increased response rates and may lead to a more representative cross-section of jurors. If remote jury selection yields positive results, courts may wish to consider expanding the pilots and engaging other stakeholders to evaluate benefits for other case types.

Given the significant number of criminal trials delayed as a result of the pandemic, the option of proceeding with remote jury selection (particularly given the potential to secure an increased

cross-section of potential jurors) may be more palatable than in the past and may reduce potential delay. As a result, many stakeholders remain interested in studying the advantages and disadvantages of remote jury trials and jury selection, and the workgroup encourages that study.

Remote Bench Trials

Throughout the pandemic, courts across Arizona continued to provide bench trials. While technology and the digital divide remain concerns, remote platforms have allowed courts to offer a remote bench trial option. Bench trials often involve discrete or narrow issues and fewer witnesses. Remote bench trials serve as a reasonable alternative to in-person proceedings during periods when access to the courthouse is restricted. Bench trials also allow for out-of-state witnesses to participate without the associated time, expense, and related issues associated with travel.

The remote bench trial option will remain an alternative to facilitate large numbers of parties or witnesses when physical distancing creates space restrictions. Remote trials may be particularly appropriate when considering preliminary injunctions and related hearings that may proceed largely on declaration rather than live testimony. Offering a virtual bench trial as an alternative to a jury trial remains a valuable potential option in resolving cases and giving litigants a choice to expedite resolution of their case.

Electronic Exhibits

Among the processes that the pandemic forced courts to re-evaluate was how exhibits are submitted, used, and managed. Exhibits historically have been submitted as physical copies at filing counters, judicial departmental offices, or during hearings. The concurrent objectives of limiting in-person contact while still allowing litigants a method to submit exhibits prompted courts to develop and accelerate solutions for receiving exhibits electronically. For example, the Clerk of the Court in Maricopa County receives exhibits through a link provided to counsel and parties. The clerk can process the exhibits electronically and those exhibits are then made accessible to the judge through a shared drive. The modified process serves to facilitate remote hearings, as judicial officers and clerks can access the exhibits, whether working in-person at the courthouse or remotely. The option to submit exhibits electronically avoids the need for parties to supply the court with multiple copies of physical exhibits, eliminating excess paper and storage, as well as the time and expense associated with physically delivering exhibits. Courts should

evaluate the benefits associated with expanding this process to include jury trial exhibits.

Initial digital evidence solutions implemented by courts during the pandemic include accepting exhibits by email or online portals. Both options help reduce litigant foot traffic within court facilities and support remote workforces. The online portal option, requiring more development while resources, provides the added benefits of intuitive electronic submittal forms, expanded file size sharing capacity, the

ability to filter out ineligible submittals, and reduced manual processing by court staff.

Through a vendor partnership, the AOC is implementing a comprehensive statewide solution for managing digital evidence. Six courts are involved in a pilot program using the Digital Evidence Center platform. The platform will organize, annotate, and support the use of digital evidence presented during court hearings. The evidence will be received by the court in electronic form and will be stored securely in the cloud.

Leveraging a robust cloud-based electronic exhibit and evidence sharing platform will also provide for increased digital evidence organization, the ability to accept multimedia exhibits electronically, enhanced security controls, and the streamlined exchange and display of digital evidence.

Courtroom Technology

The pandemic has presented various technology challenges and opportunities for change, even in the courtroom. For example, several courts have embraced technology to facilitate in-person proceedings, with one solution focusing on bench conferences.

Bench conferences during jury trials presented a unique challenge during the pandemic because bench conferences are typically handled at the bench with the lawyers and judges in close proximity. Physical distancing, masks, and shared microphones interfere with the typical process for bench conferences. To that end, several courts adopted new technology that includes headsets, allowing lawyers, the judge, and the court reporter to participate in a bench conference while each is seated at their assigned location in the courtroom.

The continued use of bench conference technology may create efficiencies due to less time needed to walk to and from the bench, reduced potential for jurors overhearing bench conferences, and eliminating the need for breaks in trial.

Alternative Dispute Resolution

The significant limitations that COVID-19 placed on jury trials caused even more focus on alternative dispute resolution (ADR) mechanisms. Along with ODR and other efforts in place before the pandemic, courts undertook new ADR efforts to help parties resolve disputes. One such effort is the Yavapai County Expanded Alternative Dispute Resolution Program (YEADR), put in place as a pilot program beginning in October 2020 as set forth in Arizona Supreme Court AO 2020-157. The purpose of YEADR is to provide a mechanism for civil litigants to use the adversarial process to resolve their claims in superior court and avoid the delay of waiting for a jury trial, given that criminal trials have priority over civil trials. Participants in YEADR are allowed a single fact finder judge, or a fact finder panel of three, to consider evidence and arguments and return a verdict to resolve a case. More information about YEADR can be found at: https://courts.yavapai.us/Portals/2/AdminOrders/2020/2020-19.pdf.

V. Communication Strategies and Disaster Preparedness

The pandemic brought significant response resources on both the national and state levels. The Centers for Disease Control and Prevention (CDC) provided information across the breadth of the potential health concerns. Guidance on initial responses, safety protocols for cleaning, distancing, masks, vaccination information, and even communication templates were all readily available on the CDC website. Similarly, the Arizona Department of Health Services posted timely information in a "dashboard" format for tracking diagnostic, hospitalization, and vaccination statistics at the

county level, along with communication tips. Unfortunately, the industry-specific models for communication strategies lacked a model for courthouse facilities.

Security, technology, and disaster preparedness plans are directed for Arizona's courts. *See* Ariz. Code of Jud. Admin. § 5-301: Court Security Standards; AO 2017-15 (Feb. 8, 2017); Justice for the Future Planning for Excellence "Technology Initiatives" (2019 – 2024) Consistent with these obligations, most courts already had a disaster preparedness plan in place before COVID-19 emerged. However, as the pandemic unfolded, courts realized that their plans were not necessarily prepared to address a global health crisis. Pre-pandemic planning often focused on more local emergency or disaster relief planning. Going forward, courts should consider reevaluating their disaster preparedness plans annually, or more frequently based on unanticipated developments. Local courts are likely to have differing concerns and priorities. There is no one-size-fits all, textbook answer for the "best" plan, other than to be proactive in disaster planning. At the state and county levels, there are emergency planning offices that can help individual courts develop their own contingency of operations plan. Police and fire departments routinely engage in such planning, as do hospitals and flood control districts. As the pandemic has shown, reaching out to similarly situated courts to brainstorm ideas also will advance the effort.

Planning a communication strategy will provide a necessary and helpful benefit, regardless of the nature of the underlying incident. Just as important is the need to share timely information about safety protocols to ensure the public's confidence. Courts must be prepared to compile and synthesize public health guidance from multiple sources at the federal, state, and local levels. It is important that courts actively reach out to relevant emergency and disaster relief offices in their respective jurisdictions to be part of the planning and communication to ensure ongoing access to justice through the courts.

The sudden change in circumstances with the pandemic and the rush of information from many

sources highlight the need for a clear and proactive response from courts. Litigants, jurors, employees, and the public need a centralized point of contact for current court information. Court users will look for the necessary information, and courts must provide resources as soon as possible to reassure the public that access to the court remains available.

The workgroup recommends the following as best practices going forward:

- Periodic interaction of general and limited jurisdiction judges and court managers
- Meetings or communications with local justice partners
- Meetings or communications with the state and local bar associations
- Ongoing updates to court staff
- Use of the Arizona Supreme Court's Public Information Officer (PIO) and local PIO or designee to share public information
- Posting updates on court services on social media outlets

Such efforts should account for barriers to effective communication, including language skills and requirements of the ADA and similar legislation. Given the diversity of the population in Arizona, addressing any communication shortfalls should be considered in advance, rather than on an emergency basis. Regular updates to courts' language access plans should plan for emergency operations of the court. Interpreter services also need separate consideration in developing an

effective communication and participation policy. Posting informational documents, appropriately translated, is critical.

Solutions developed during the pandemic that merit future application include:

- Updating and publicizing jury forms to be accepted electronically
- Public outreach and education initiatives to promote awareness and use of remote services
- Judges explaining, in advance (such as during a status or final pretrial conference), remote trial procedures and expectations to the parties to make remote trials more productive, efficient and effective
- Constable ride-along opportunities for media, both national and local, in English and Spanish
- Video and interviews with constables regarding eviction procedures made available to the media
- A "<u>Return to Service</u>" video in Spanish and English highlighting the safety precautions taken in the Maricopa County Justice Courts
- Posting social media updates, with examples created during the pandemic including:
 - Pima County Superior Court Cleaning During COVID-19
 - o Jury Service During COVID-19 Pandemic
 - o Jury trials during the pandemic
 - o <u>Improve how your mask protects you</u>

VI. Health, Safety, and Security Protocols

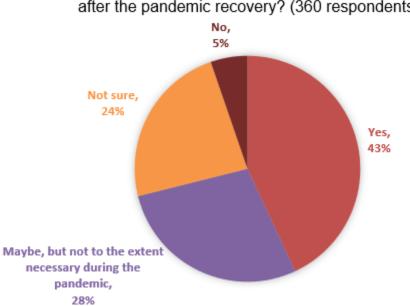

With the identification and outbreak of COVID-19, key concerns coalesced rapidly around health guidance for stopping the spread of the virus. The workgroup sought to synthesize the data, directives, and guidance from the various agencies providing such expertise and communicate this information through its work products. As the medical and scientific experts gained experience, the recommended protocols slowly evolved, often imperfectly, but always with the ultimate goals of health and safety. What remained constant throughout was the importance of increased cleaning protocols, social distancing, and wearing protective masks.

Courthouse Health

The pandemic caused courts to reassess how their public and staff spaces were maintained, cleaned, and sanitized. Early on, medical science and recommendations focused on surface transmissibility. With that came recommendations for increased cleaning regimens for frequently touched items – door handles, elevator buttons, countertops, shared pens, water fountains, etc. This courthouse "health and hygiene" became essential for limiting the spread of COVID-19. Many courts have adopted revised cleaning protocols as a result of the pandemic. In April 2021, the CDC confirmed that, typically, the risk of infection from touching a surface is low. The most reliable way to prevent infection from surfaces, however, remains to regularly wash hands or use hand

sanitizer. According to the CDC, when no people with confirmed or suspected COVID-19 are known to have been in a space, cleaning once a day is usually enough to sufficiently remove any virus that may be on surfaces. Courts may choose to continue with modified cleaning protocols, focusing on preventing the transmission of a contagion in a courthouse, particularly when there is a confirmed or suspected exposure to a contagion. This will likely come with a need to adjust operational budgets, e.g., cleaning services may need to be more than just a nightly (or periodic) emptying of trash and recycling containers.

The survey results reflect a renewed appreciation for courthouse health and hygiene protocols. When asked whether they intend to keep the court cleaning protocols in place after the pandemic recovery, respondents indicated: [SQ 14]

Do you intend to keep your court cleaning protocols in place after the pandemic recovery? (360 respondents)

Along with cleaning protocols in public areas, many courts adopted policies for the courtroom environment during trial. For example, some court policies directed that court staff wipe down the witness stand between witnesses or wipe the juror seats or other areas in the courtroom or juror spaces. Courts may wish to reconsider the extent of their cleaning and sanitizing protocols given revised public health recommendations.

Individual responsibility, through increased hand washing and use of hand sanitizer, remains a mitigation factor. Courts should consider maintaining posted reminders for hand washing; providing visible, available, and frequently refilled hand sanitizer dispensers; and provide cautions for sneeze/cough etiquette to help reinforce and continue valuable mitigation behaviors even after the pandemic to account for other contagions.

Jurors have shared positive feedback following trials that included robust cleaning and safety protocols that they observed or that were communicated to them. One of the residual effects of the pandemic may be an expectation that public areas in courthouses, including juror areas, are cleaned with greater frequency. Courts should consider the public's expectations before reducing the cleaning protocol that may have been implemented during the pandemic.

Courthouse Safety and Design

The pandemic caused a renewed view of how courthouse space is used and should be used. In the past, high volume court dockets led to overcrowding in various locations, including jury gathering places, courtrooms (particularly in high volume courts) and significant "pinch points" in the courthouse. The pandemic required courts to re-evaluate the flow of people to and in the courthouse and how that flow impacts how court business is conducted. Lessons learned from that should be applied by the courts as they emerge from the pandemic.

Reducing foot traffic at the courthouse can be a significant tool in maintaining social distancing. Courts have implemented various strategies for reinstating jury operations to ensure conformity with social distancing requirements. At least in the short-term, courts will need to continue to use and modify the strategies that have been successful. Examples include using smaller panels, seating jurors in the gallery, using alternative spaces for trial, implementing electronic juror questionnaires, staggering reporting times, and employing remote jury selection. As public health recommendations change, courts will be able to modify and perhaps eliminate many procedures adopted to facilitate social distancing. Physical distancing remains one of the significant impediments to resuming normal jury operations. As a result, it is anticipated that courts will continue to rely on measures to ensure social distancing for as long as it is recommended in public spaces.

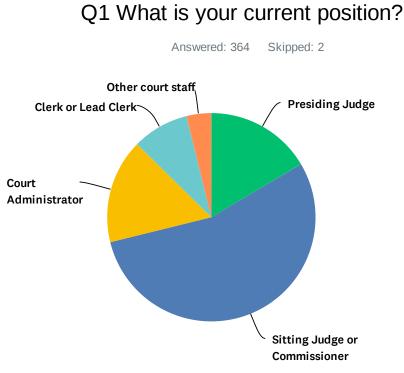

Various courts also reconfigured courtrooms and courthouses to enhance social distancing in existing court spaces. Design choices from the past were met head-on by the new health standard of requiring at least six feet of spacing between individuals. Each courthouse provides unique circumstances and challenges, from entrances and lobbies, to waiting areas, elevators, jury boxes, and even stairwells. Successful innovations across Arizona found opportunities to add the recommended spacing, delineating separate entrance and exit points, altering hours of operation, establishing more appointment-based services, increasing remote work options, and implementing smaller core groups of employees that shared scheduled coverage. Many courts opted to install clear physical dividers (i.e., plexiglass screens) that were either internally fabricated or commercially sourced.

Some jurisdictions have larger courtroom spaces that were easier to adapt, or that allowed proceedings to continue without the need for modification. Others worked to distribute participants (including jurors) into the public viewing areas of a courtroom, but with the attendant issue of continuing to ensure an adequate ability to properly see and hear the evidence and testimony and make a proper record of the proceedings. Counsel tables also needed to be reconfigured, ensuring appropriate visibility for jurors.

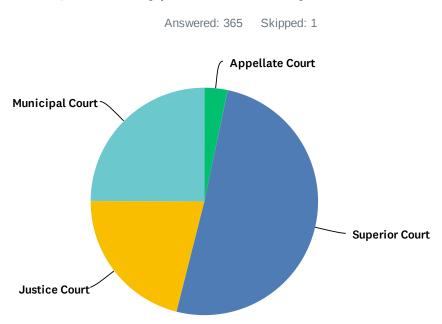

As needs for capacity in Arizona's courts expand, new courthouses may be required. The issues faced during the pandemic suggest that, going forward, courthouse design needs to be viewed through fresh eyes for disaster preparedness. COVID-19 could not be predicted. But the thought that courts may face large scale challenges in the future should come as no surprise. New courthouses should be designed with such a possibility in mind, including ensuring that gathering spaces are not cramped and crowded; that configurations can have flexibility and adaptability as needs change; that ventilation, heating, and air conditioning is well-engineered and adaptable; and ensuring easy ingress and egress for the public and staff, both getting to the courthouse and within the courthouse itself. The age-old concept of courthouse design will need to be viewed through a different, post-pandemic lens going forward.

Security Protocols

The efforts taken by Arizona's courts during the pandemic to serve the public often involved the use of technology. The foresight of the judiciary allowed for that to happen comparatively quickly and with great efficacy. That enhanced use of technology, however, provides more focus on the need for technology security protocols. During the pandemic, court systems were compromised by malicious attacks, including a service provider for Arizona's courts. Thus, the enhanced reliance on technology as a result of the pandemic, which is likely to continue postpandemic, requires continued and renewed focus on technology security. Appendix – <u>Post-Pandemic Court Operations Survey</u>

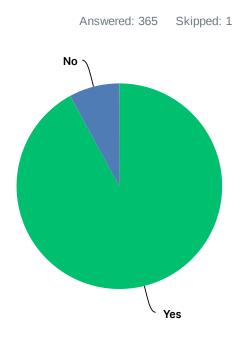

| ANSWER CHOICES | RESPONSES |
|-------------------------------|------------|
| Presiding Judge | 16.48% 60 |
| Sitting Judge or Commissioner | 54.67% 199 |
| Court Administrator | 16.21% 59 |
| Clerk or Lead Clerk | 8.79% 32 |
| Other court staff | 3.85% 14 |
| TOTAL | 364 |

| ANSWER CHOICES | RESPONSES | |
|-----------------|-----------|-----|
| Appellate Court | 3.29% | 12 |
| Superior Court | 50.68% | 185 |
| Justice Court | 21.10% | 77 |
| Municipal Court | 24.93% | 91 |
| TOTAL | | 365 |

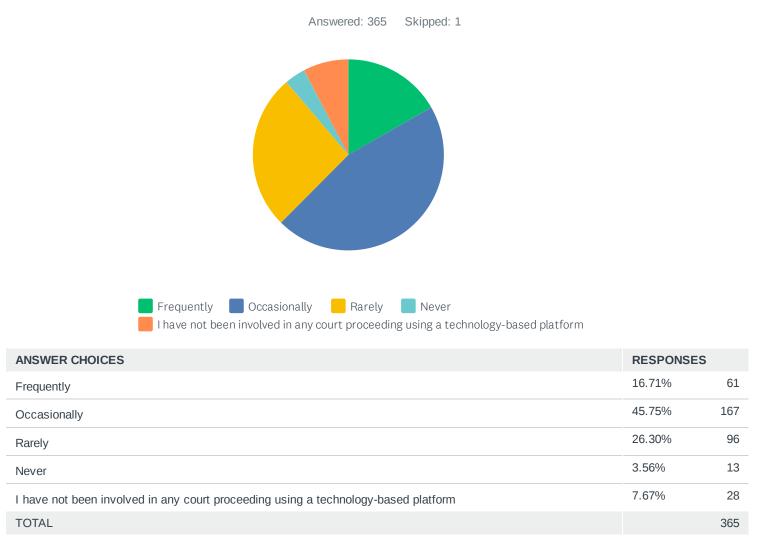

Q2 What type of court do you work in?

Q3 Have you conducted or been a part of any court proceeding that has taken place using a technology-based platform (Examples: Zoom, Teams, WebEx, Skype, GoToMeeting, bridgelines, conference call lines, phone, etc.)?

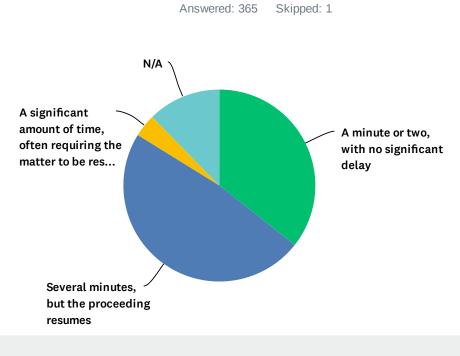

| ANSWER CHOICES | RESPONSES | |
|----------------|-----------|-----|
| Yes | 92.05% | 336 |
| No | 7.95% | 29 |
| TOTAL | | 365 |

Q4 In a proceeding you conducted or were a part of, how often, if at all, did you experience technical disruptions during court proceedings using a technology-based platform?

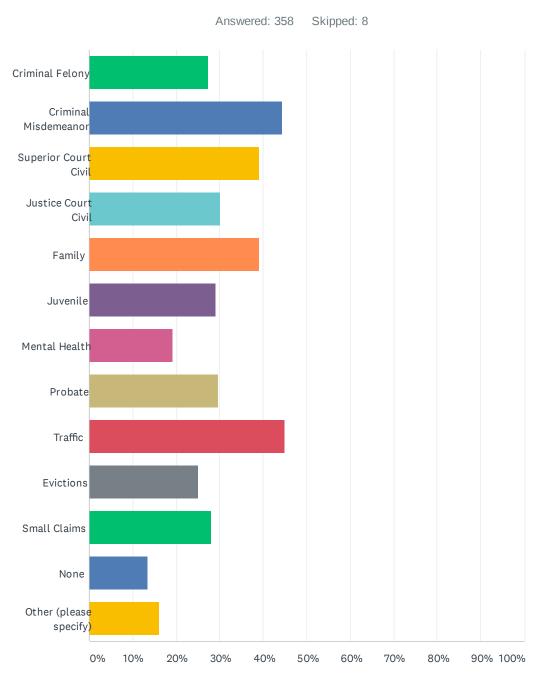

Q5 When you have technical difficulties during a court proceeding using a technology-based platform, how much time is generally needed to resolve the problem?

| ANSWER CHOICES | RESPONSES | |
|---|-----------|-----|
| A minute or two, with no significant delay | 35.62% | 130 |
| Several minutes, but the proceeding resumes | 48.22% | 176 |
| A significant amount of time, often requiring the matter to be reset on another day | 3.84% | 14 |
| N/A | 12.33% | 45 |
| TOTAL | | 365 |

Q6 For which case types should courts continue to use technology-based platforms after the pandemic recovery? (Check all that apply)

| ANSWER CHOICES | RESPONSES | |
|------------------------|-----------|-----|
| Criminal Felony | 27.37% | 98 |
| Criminal Misdemeanor | 44.41% | 159 |
| Superior Court Civil | 39.11% | 140 |
| Justice Court Civil | 30.17% | 108 |
| Family | 39.11% | 140 |
| Juvenile | 29.05% | 104 |
| Mental Health | 19.27% | 69 |

| # | OTHER (PLEASE SPECIFY) | DATE |
|----|---|--------------------|
| 1 | I am in family court and I have found that very few self-represented litigants are unable to access the courtroom via a smart device. It is a rarity and they seem to prefer appearing virtually as it minimizes their need to take time off of work (this is especially helpful for low income litigants) to drive to the courthouse for every hearing | 5/14/2021 10:13 AM |
| 2 | no experience | 5/14/2021 9:38 AM |
| 3 | Parents in dependency actions frequently lack reliable technology. | 5/14/2021 7:40 AM |
| 4 | Not sure yet | 5/13/2021 1:40 PM |
| 5 | More elderly participants who are not acquainted with specified platform. | 5/12/2021 9:59 AM |
| 6 | since all of these generally have a telephone, it has not seemed to be a problem as they can appear by phone. The Court could provide exceptions for those who are unable to appear virtually. One of my chambers is next to the OOP office and even though these are done virtually(telephonically primarily) there seems to be no problems in Pima County | 5/12/2021 9:30 AM |
| 7 | Patients in mental health cases and litigants who are homeless. | 5/11/2021 3:54 PM |
| 8 | parents in dependency cases | 5/11/2021 3:48 PM |
| 9 | Individuals living on the reservation, Elderly individuals who lack experience with technology. | 5/11/2021 12:35 PM |
| 10 | Anyone without technology/bandwidth. Also, could be one/or all of the above, especially if the courthouse bandwidth is down. | 5/11/2021 12:20 PM |
| 11 | "May" pose a barrier for some SRLs. | 5/11/2021 11:48 AM |
| 12 | Some self-represented litigants, victims, and witnesses will have some digital divide issues, but the divide might not be as great as some fear. Many low income individuals have smart phones capable of allowing them access to technology based platforms. The elderly might be more likely to have digital divide issuesnot because they don't have access to technology, but because they do not understand or know how to use the technology that they do have. | 5/11/2021 10:45 AM |
| 13 | All plaintiffs/litigants of all types and associated witnesses do not have adequate access to digital communications due to the economic conditions unique to our jurisdiction | 5/11/2021 10:21 AM |
| 14 | Some of our court interpreters have technical problems too | 5/11/2021 10:03 AM |
| 15 | people who live in areas without adequate service, primarily rural | 5/11/2021 9:54 AM |
| 16 | could have this issue with any of the above | 5/11/2021 8:50 AM |
| 17 | Economic based, versus the groups listed above | 5/11/2021 8:15 AM |
| | | |

| 18 | varies | 5/11/2021 7:56 AM |
|----|--|-------------------|
| 19 | No one group specifically as I have seen even 'homeless' individuals have a smartphone which would work for a remote appearance. Phone only may be more difficult with trial with multiple things to view simultaneously, but | 5/7/2021 2:35 PM |
| 20 | Participants in the court process (all of the above) who live in remote areas. Sometimes this can be remedied by driving to a more urban area or the court creating remote access locations. | 5/5/2021 5:28 PM |
| 21 | Defendants in specialty courts such as Mental Health Court and Homeless Court just to name a few. | 5/5/2021 5:03 PM |
| 22 | This question is unclear. It doesn't matter what participation role a party has in a judicial proceeding. It matters how good, reliable and consistent that connection is for that person. All of the above could have reliable and consistent internet service, or none of them could, or some of them could | 5/4/2021 9:21 PM |
| 23 | INDIGENT DEFENDANTS | 5/4/2021 5:31 PM |
| 24 | Indigent defendants. | 5/4/2021 2:03 PM |
| 25 | In Maricopa County, there are enough places to get online that this will not be an issue, especially if the Court continues to offer video conference space | 5/4/2021 10:46 AM |
| 26 | some (a small amount) of self-represented litigants. | 5/4/2021 8:09 AM |
| 27 | It depends on the individual's situation. Litigants in rural courts will face more challenges overall than those in metropolitan areas. Beyond that, not every person has a smart phone, and even those who do may find the service inadequate. | 5/3/2021 11:23 PM |
| 28 | The question asks "a barrier," but my answer is that for none will it impose a significant barrier. | 5/3/2021 5:01 PM |
| 29 | unknown | 5/3/2021 4:48 PM |
| 30 | Impacts to the poor who do not have internet anf to the elderly who do not know how to use technology | 5/3/2021 4:33 PM |
| 31 | Defendants out of custody in criminal matters | 5/3/2021 4:32 PM |
| 32 | litigants without reliable access to the internet | 5/3/2021 3:49 PM |
| 33 | THE ISSUE ISNT WHICH GROUP IT APPLIES MORE TO DEMOGRAPHICS AND A PERSONS STABILITY IN A COMMUNITY | 5/3/2021 3:34 PM |
| 34 | If hybrid is an option it shouldn't pose a barrier even if someone's circumstance changes (phone gets disconnected or no internet service available they could appear in person). | 5/3/2021 3:23 PM |
| 35 | Individuals with a limited income | 5/3/2021 3:21 PM |
| 36 | Defendants (those who are homeless, struggle with mental health issues, and/or financial hardships are most likely to not have access) | 5/3/2021 3:04 PM |
| 37 | Perhaps everyday folks, if we're excluding the possibility of appearing through the platform via telephone/mobile phone, and requiring video participation. | 5/3/2021 3:02 PM |
| 38 | I do not think that anyone other than attorneys should be required to appear in any remote manner, I think that there should not be a divide so much as everyone appears in the manner they are best able. There have been self represented and indigent persons before me by video because the travel to court was a greater hardship than figuring out how to appear by zoom. This should never be a barrier by becoming a requirement, but an accessibility function opening up the court to those who would have difficulty attending otherwise. | 5/3/2021 2:59 PM |
| 39 | indigent defendants | 5/3/2021 2:44 PM |
| 40 | In Juvenile Court, I have observed that many litigants who often were unable to travel to hearings without great difficulty due to transportation challenges (no vehicle, long bus rides, etc.) have had improved attendance and participation. So although I have concerns about the digital divide, the benefits for those who have transportation/child care and work challenges with in-person appearances seem to outweigh the disadvantages resulting from the digital divide. | 5/3/2021 2:38 PM |
| 41 | There's the chance for digital divide for all. Technology-based platforms is not the answer for | 5/3/2021 2:25 PM |

| | all, but it is a solution courts should continue to be able to offer. There are advantages and disadvantages but both can be managed and positive solutions figured out. Balance will be key. | |
|----|---|------------------|
| 42 | Hard to generalize on this one as to the attorneys. I've had a fair number of lawyers in different sized firms encounter bandwidth issues, and I'm not sure whether it comes down to a particular provider, or the type of service used, or something else. Usually the result is that they can hear me but not see me, while I am able to see and hear them. That's obviously not ideal. Just not sure what the remedy is. | 5/3/2021 2:22 PM |
| 43 | I have been handling my civil commissioner calendar (Maricopa County) remotely for over a year now. I have yet to encounter a litigant that was unable to attend a hearing because he or she lacked the necessary technology. Further, I seem to have had more defendants appear for initial eviction hearings and injunction against harassment hearings than before the pandemic. I suspect one reason might be the ease of attending using a smart device or computer. If we ever have a litigant unable to appear by phone or device, we can certainly allow that person to appear in person. | 5/3/2021 2:09 PM |
| 44 | The public in general, which has a right to attend most proceedings. | 5/3/2021 2:04 PM |
| 45 | The Court | 5/3/2021 2:00 PM |
| | | |

Q10 Has your court taken any steps to address the "digital divide," such as creating a designated location to appear remotely, providing hardware (laptops, tablets, mobile phones), data cards, etc.?

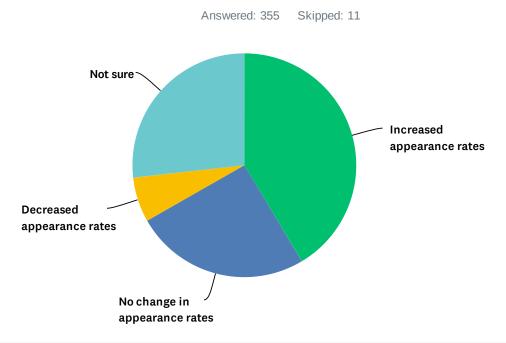

| ANSWER CHOICES | RESPONSES | |
|-----------------------------------|-----------|-----|
| Yes | 25.21% | 91 |
| Not sure | 18.84% | 68 |
| No | 36.29% | 131 |
| This was not an issue in my court | 19.67% | 71 |
| TOTAL | | 361 |

| # | IF YES, PLEASE SPECIFY. | DATE |
|---|--|--------------------|
| 1 | We have made arrangements for parties to appear in the courthouse lobby with a laptop or other device | 5/14/2021 12:32 PM |
| 2 | We have given folks the option to appear by phone and provided a phone number to appear by phone. | 5/14/2021 12:16 PM |
| 3 | There is an area for litigants to use a computer provide by the court. These are reserved for emergencies and orders of protection and this system has worked well during the pandemic. | 5/14/2021 10:13 AM |
| 4 | We have a designated location in our court house victims can appear without going into the courtroom. | 5/14/2021 8:47 AM |
| 5 | I know Maricopa has a designated area to appear remotely for orders of protection/injunctions against harassment. I really want us to do more. I also think strategic partnerships with schools, libraries, and parks departments would increase access. | 5/14/2021 7:57 AM |
| 6 | The majority of our self-represented litigants do not have access to digital platforms, so we conducted hearings primarily by phone when needed. We did not provide tablets or laptops due to space and other constrictions. | 5/14/2021 7:45 AM |
| 7 | Allow them to come to the courtroom | 5/13/2021 1:40 PM |

| 8 | meeting room in the courthouse | 5/13/2021 11:32 AM |
|----|---|--------------------|
| 9 | Providing guidance on using digital / electronic platforms. | 5/12/2021 4:28 PM |
| 10 | OOPs and IAHs | 5/11/2021 4:05 PM |
| 11 | Court staff are researching having wi-fi improvements in the waiting area. Many pro-per and Protective order plaintiffs have trouble in our building using smart phones to fill out order forms. | 5/11/2021 1:30 PM |
| 12 | In the early days of the pandemic, procedures were implemented to allow remote in-person appearances for order of protection hearings. | 5/11/2021 1:05 PM |
| 13 | Areas have been designated for this purpose just outside of the courtroom. | 5/11/2021 12:43 PM |
| 14 | We have Kiosk set up for use in court house. Provided Lap Tops for individuals in an available room for individuals to use. | 5/11/2021 12:35 PM |
| 15 | by providing a computer station for use by pro per litigants who come to the legal resource center. | 5/11/2021 11:02 AM |
| 16 | If someone claims they cannot use Zoom, we allow them to call into court. | 5/11/2021 10:45 AM |
| 17 | The litigants usually just appear by phone | 5/11/2021 10:36 AM |
| 18 | The Court provides laptops in jail for defendants who are unable to be transported. The defense agencies have also created digital courtrooms that allow their clients to appear virtually from a room in their office. | 5/11/2021 10:30 AM |
| 19 | We do provide a kiosk to fill out forms/motions etc. but do not have ability to have them appear remotely excluding in custody video court | 5/11/2021 10:21 AM |
| 20 | I know there was talk early on; it may be happening. My sense was the logistics of having it available when I might need it for a particular case was difficult. Getting useful instructions out to parties is an issue when you do things on a case by case basis. | 5/11/2021 10:03 AM |
| 21 | JAIL TABLET HEARINGS | 5/11/2021 9:27 AM |
| 22 | We have hybrid hearings, stream live and use the order of protection centers. | 5/11/2021 9:06 AM |
| 23 | Tablets for Protective Orders | 5/11/2021 8:22 AM |
| 24 | Hardware and tech support are available for a variety of types of proceedings. | 5/11/2021 8:21 AM |
| 25 | Remote access to hardware | 5/11/2021 8:20 AM |
| 26 | website instructions, text messages, improved customer service, fillable forms | 5/11/2021 8:17 AM |
| 27 | remote appearance locations, hybrid hearings | 5/11/2021 8:06 AM |
| 28 | We have a tablet or chromebook that is setup in the council chambers for party to participate in hearing. | 5/11/2021 8:05 AM |
| 29 | Computer in lobby | 5/11/2021 8:02 AM |
| 30 | don't know | 5/11/2021 7:56 AM |
| 31 | iPad in attorney rooms for privacy. Telephonic options | 5/6/2021 11:39 AM |
| 32 | INDIGENT DEFENDANTS WERE PROVIDED A QUIET ROOM WITH A PHONE AND LAPTOP IF NEEDED. ALSO, OUR COURT HAS A LARGE TV MONITOR IN FRONT OF THE COURTS BENCH,SO IF THE COURT IS REMOTE AND THE D IS IN THE COURTROOM, THE PARTICIPANTS CAN CLEARLY SEE AND HEAR EACH OTHER. | 5/4/2021 5:31 PM |
| 33 | smart carts | 5/4/2021 2:03 PM |
| 34 | We attempted to make technology available for those who did not have their own access. | 5/4/2021 8:49 AM |
| 35 | lam unable to download Zoom (for my live training) So I bring my personal laptop using my personal wifi. and I still have problems. | 5/4/2021 8:30 AM |
| 36 | Tablets and cradles as part of a pilot program. | 5/4/2021 8:09 AM |
| 37 | such locations and devices are not financially available and our rural constituents cannot travel | 5/4/2021 7:56 AM |
| | | |

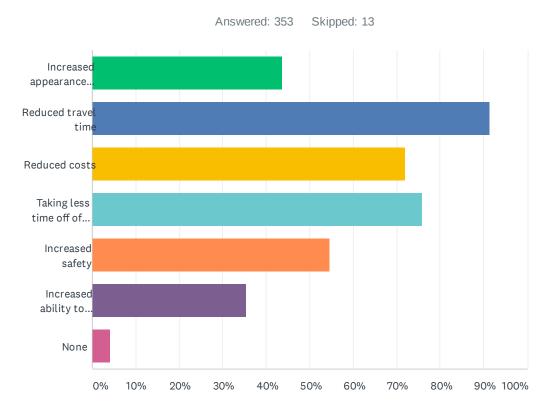

| | long distances to obtain these kinds of services | |
|----|---|------------------|
| 38 | We had a special room that had all technology available to those that required it. | 5/3/2021 8:43 PM |
| 39 | For protective orders only. Need to expand this. | 5/3/2021 4:33 PM |
| 40 | This is done in Orders of Protection, Inj. etc. | 5/3/2021 4:18 PM |
| 41 | toll free public line | 5/3/2021 3:49 PM |
| 42 | Allowing for telephonic appearances when video conferencing was not available to a party | 5/3/2021 3:33 PM |
| 43 | We allow those who cannot appear by video to appear by phone. Because not everyone has unlimited data or minutes we make sure no one waits online for a long time. Litigants who have no technology may appear in person. We have tablets in the courtroom to allow for hybrid appearances, so if someone is in person others can appear remotely. | 5/3/2021 3:29 PM |
| 44 | Our court has a very limited budget and some of our defendants are unable to access this type of technology due to limited means. | 5/3/2021 3:21 PM |
| 45 | Law Library/Resource Center | 5/3/2021 3:17 PM |
| 46 | Primarily a case specific method of exchanging exhibits addressed at a pre-hearing conference. | 5/3/2021 3:06 PM |
| 47 | We have a computer people can use to apply for protective orders. Otherwise, we really haven't had a problem with anyone who absolutely cannot appear via zoom. Almost everyone can figure it out, ie: borrow from a friend/relative, etc | 5/3/2021 2:45 PM |
| 48 | There are rooms dedicated to those appearing at hearings on orders of protection. We also have ipads in the courtroom. | 5/3/2021 2:35 PM |
| 49 | telephonic hearing | 5/3/2021 2:16 PM |
| 50 | I believe our court has provided a designated location to appear remotely, and has provided tablets in the courtroom if one but not all parties seek to attend in person. | 5/3/2021 2:09 PM |
| 51 | location in court house with access to equipment | 5/3/2021 2:09 PM |
| 52 | Rooms at court for various people-witness, litigants-who don't have their own tech or internet access. | 5/3/2021 2:08 PM |
| 53 | Tablets | 5/3/2021 2:06 PM |
| 54 | We have set up conference rooms for litigants to be able to attend court. | 5/3/2021 2:04 PM |
| 55 | Provide technology | 5/3/2021 2:01 PM |
| 56 | Lap top available for filling out orders of protection in the court lobby. | 5/3/2021 2:00 PM |
| 57 | Tablets for jailed defendants | 5/3/2021 2:00 PM |
| 58 | Room in each court facility set up with a computer for litigant use | 5/3/2021 1:58 PM |
| 59 | Not an issue | 5/3/2021 1:58 PM |
| 60 | Providing pre-paid mobile phones for use by litigants who do not have access to the technology. | 5/3/2021 1:58 PM |
| | | |

Q11 Based on your experience, how has the ability of responding parties (i.e., defendants, respondents) to make appearances using technologybased platforms changed appearance rates?

| ANSWER CHOICES | RESPONSES |
|-------------------------------|------------|
| Increased appearance rates | 41.41% 147 |
| No change in appearance rates | 25.35% 90 |
| Decreased appearance rates | 6.48% 23 |
| Not sure | 26.76% 95 |
| TOTAL | 355 |

Q12 Based on your experience, what benefits have litigants, attorneys, and other court participants experienced through the use of technologybased platforms? (Please check all that apply)

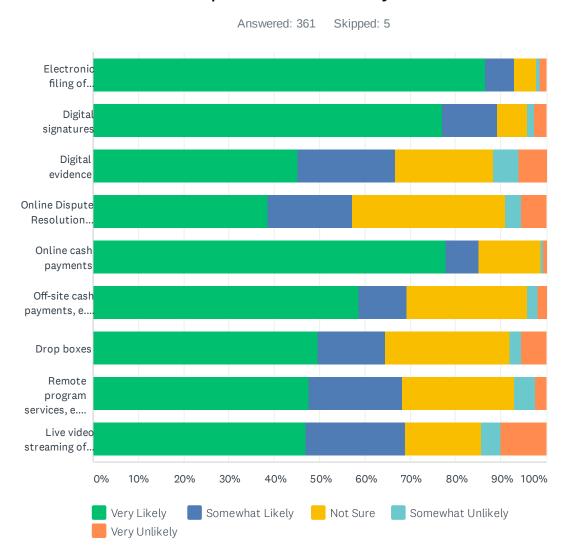

| ANSWER CHOICES | RESPONSES | |
|--|-----------|-----|
| Increased appearance rates | 43.63% | 154 |
| Reduced travel time | 91.50% | 323 |
| Reduced costs | 71.95% | 254 |
| Taking less time off of work | 75.92% | 268 |
| Increased safety | 54.67% | 193 |
| Increased ability to calendar hearings | 35.41% | 125 |
| None | 4.25% | 15 |
| Total Respondents: 353 | | |

| # | OTHER (PLEASE SPECIFY) | DATE |
|---|--|-------------------|
| 1 | n/a | 5/14/2021 9:38 AM |
| 2 | Location is not an issue if a person doesn't have to appear at the court building | 5/14/2021 7:37 AM |
| 3 | Allows cases to move forward when parties had COVID exposure and weren't allowed in building | 5/13/2021 3:07 PM |
| 4 | unable to tell at this time | 5/13/2021 1:40 PM |
| 5 | do not use technology base platforms due to pandemic | 5/11/2021 2:46 PM |

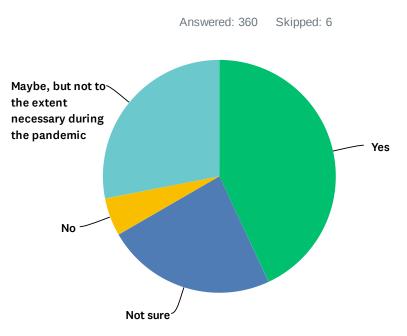

| 6 | Remote practice | 5/11/2021 12:43 PM |
|----|---|--------------------|
| 7 | An excuse not to appear. | 5/11/2021 12:14 PM |
| 8 | na | 5/11/2021 10:32 AM |
| 9 | MUCH improved. | 5/11/2021 8:15 AM |
| 10 | This Municipal Court just handles civil traffic and OP'S/INJ'S | 5/6/2021 11:22 AM |
| 11 | Although not physically present in the building, not having to take additional time off from work, have to drive downtown, pay for parking, wait for a case to be called, having technology based platforms provides a person less stress about having to be in contact with the court. People seem to be more willing to participate and appear remotely. | 5/5/2021 5:03 PM |
| 12 | I think the ability to take less time off of work is really essential to making the courts accessible to hourly workers by not creating a significant financial penalty/hardship. It also makes courts accessible to witnesses who are not local. | 5/4/2021 10:46 AM |
| 13 | Haven't used technology-based platforms | 5/4/2021 9:16 AM |
| 14 | Decreased stress. | 5/3/2021 4:33 PM |
| 15 | Currently, not an even platform for all who appear before the court. | 5/3/2021 4:18 PM |
| 16 | none | 5/3/2021 3:34 PM |
| 17 | Great savings when using experts. And, experts have more time to review and testify if they don't have to travel to appear at trial in person. | 5/3/2021 3:20 PM |
| 18 | We are rural. We have a deficit of attorneys. Many attorneys that practice here are from out of our county, and already appeared remotely for most hearings. I can now see them. Their clients can now see them. This is a huge shift in the ability to form trust in the system. Further, the people who typically wouldn't appear in court, such as victims or foster placement or supports, are able to see what is going on. I like that. | 5/3/2021 2:59 PM |
| 19 | Honestly, at a time when so many of us are isolated, just being able to connect is a bonus. The video platforms have allowed us to maintain community between the bench and bar, and I would hope between individual lawyers as well. | 5/3/2021 2:22 PM |
| 20 | Not enough data to answer. | 5/3/2021 1:59 PM |
| | | |

Q13 Based on your experience, looking into the future, to what extent do you foresee the continued use of the following court technologies after the pandemic recovery?

| | VERY LIKELY | SOMEWHAT LIKELY | NOT SURE | SOMEWHAT UNLIKELY | VERY UNLIKELY | TOTAL | WEIGHTED AVERAGE |
|---|----------------|--------------------|---------------|----------------------|------------------|-------|---------------------|
| Electronic filing of documents | 86.55% 309 | 6.44% 23 | 4.76% 17 | 0.84% 3 | 1.40% 5 | 357 | 4.76 |
| Digital signatures | 77.05% 272 | 12.18% 43 | 6.52% 23 | 1.70% 6 | 2.55% 9 | 353 | 4.59 |
| Digital evidence | 45.09% 156 | 21.68% 75 | 21.68% 75 | 5.49% 19 | 6.07% 21 | 346 | 3.94 |
| Online Dispute Resolution (ODR) | 38.60% 127 | 18.54% 61 | 33.74% 111 | 3.65% 12 | 5.47% 18 | 329 | 3.81 |
| Online cash payments | 78.00% 273 | 7.14% 25 | 13.71% 48 | 0.57% 2 | 0.57% 2 | 350 | 4.61 |
| Off-site cash payments, e.g., PayNearMe | 58.58% 198 | 10.65% 36 | 26.63% 90 | 2.37% 8 | 1.78% 6 | 338 | 4.22 |
| Drop boxes | 49.55% 166 | 14.93% 50 | 27.46% 92 | 2.69% 9 | 5.37% 18 | 335 | 4.01 |
| Remote program services, e.g., court- ordered treatment or educational programs | 47.52% 163 | 20.70% 71 | 24.78% 85 | 4.66% 16 | 2.33% 8 | 343 | 4.06 |
| Live video streaming of court proceedings for some case types | 47.01% 165 | 21.94% 77 | 16.81% 59 | 4.27% 15 | 9.97% 35 | 351 | 3.92 |

Q14 Do you intend to keep your court cleaning protocols in place after the pandemic recovery?

| ANSWER CHOICES | RESPONSES | |
|--|-----------|-----|
| Yes | 43.06% | 155 |
| Not sure | 23.61% | 85 |
| No | 5.28% | 19 |
| Maybe, but not to the extent necessary during the pandemic | 28.06% | 101 |
| TOTAL | | 360 |

| # | OTHER (PLEASE SPECIFY) | DATE |
|----|--|--------------------|
| 1 | My JA loves to clean and has always kept our courtroom very clean, even prior to the pandemic. | 5/14/2021 12:16 PM |
| 2 | Personally, I think this was overdone, even for the pandemic. | 5/14/2021 7:37 AM |
| 3 | But possibly not to the same extent as during the pandemic. | 5/11/2021 1:05 PM |
| 4 | But only as necessary for a period of time | 5/11/2021 11:33 AM |
| 5 | If required to, we will. | 5/11/2021 10:45 AM |
| 6 | continue to have mid-day cleaning during break in sessions as well as evening cleaning. we also have protocol to have immediate de-con should a contamination event occur | 5/11/2021 10:21 AM |
| 7 | I do not know what protocols are in place or being done now as no one except me is in the courtroom. | 5/11/2021 10:03 AM |
| 8 | come onthe cdc has determined that the cleaning protocols are largely for show | 5/11/2021 9:26 AM |
| 9 | Our Court was already sanitizing all public areas on a weekly basis before the pandemic. | 5/11/2021 8:05 AM |
| 10 | But that won't be my decision, it will be the PJ's | 5/11/2021 7:56 AM |
| 11 | We will defer to the city's janitorial cleaning; however, we will maintain sanitizers, plexiglass barriers, alcohol wipes at courtrooms, staff workstations, public service areas, and areas | 5/6/2021 11:02 AM |

| | where there is heavy foot traffic. | |
|----|--|-------------------|
| 12 | I don't have the ability to independently keep the cleaning protocols in place, but I hope Court Administration chooses to do so. | 5/5/2021 8:40 PM |
| 13 | Not my decision to make | 5/5/2021 7:57 AM |
| 14 | THIS IS A QUESTION FOR ADMINISTRATION TO ANSWER IN OUR COURT | 5/4/2021 5:31 PM |
| 15 | These measures have benefits beyond Covid (ie flu) and that seems helpful, especially in a high volume courtroom. | 5/4/2021 10:46 AM |
| 16 | Especially during clod and flu season | 5/3/2021 3:33 PM |
| 17 | It won't be up to me to make that decision. | 5/3/2021 3:04 PM |
| 18 | I personally will keep the protocols in place for my courtroom but I can't speak for the court. | 5/3/2021 3:03 PM |
| 19 | I think the evidence is showing that fomite transmission is actually unlikely and therefore cleaning protocols are not overly effective. Distancing and mask wearing appear to be more effective ways to slow transmission, combined with vaccine. | 5/3/2021 2:38 PM |
| 20 | I don't know what the court plans on doing. | 5/3/2021 2:27 PM |
| 21 | I do not, but I have no control over the decision | 5/3/2021 1:58 PM |
| | | |

Q15 What suggestions, comments, or criticisms do you have or have you received about the use of technology-based platforms in court proceedings?

Answered: 211 Skipped: 155

| # | RESPONSES | DATE |
|----|--|--------------------|
| 1 | None | 5/15/2021 8:35 AM |
| 2 | Mostly positive feedback. I feel there are shortcomings. | 5/14/2021 12:32 PM |
| 3 | Some family court litigants have wanted to appear in person for their bench trials and evidentiary hearings. | 5/14/2021 12:16 PM |
| 4 | It is still not ideal to use for taking evidence. The level of coordination to ensure all witnesses have the exhibits is difficult and even with screen sharing the exhibit is difficult for some to see on a screen. Also, the Internet strength of the various parties, lawyers, and witnesses often impacts the severity of technical issues we experience during the hearings, which causes delay, affects the clarity of the record for appeal purposes, and makes it difficult to judge testimony. We have no control over ensuring that the bandwidth each person has in their remote location is strong enough to stream so that both their video and audio will be seen and heard clearly as they often don't test their internet until the time of the hearing when they log on. Lastly, there is often a lack of decorum during virtual hearings. I have had to repeatedly admonish lawyers not to pass notes to their clients during testimony and to instruct people to stop smoking, drinking, cursing, and to dress appropriately during proceedings. Distractions are much more frequent (dogs parking, background noise) and it is difficult to ensure that a party is complying when the rule is invoked as they can have someone in the room without being visible on the camera. I had to call 9-1-1 for a litigant during a hearing last month as her domestic partner was banging on her door outside during a hearing and she was frightened. So, I do believe safety is also something that we have less control over in the virtual setting. These are not really criticisms but demonstrate why it is appropriate to return to in person hearings where evidence is being taken. | 5/14/2021 10:13 AM |
| 5 | The pandemic forced the courts to use more technology which helped us to understand how the technology can be utilized to increase access to the courts. The technology has absolutely assisted the courts, witnesses, litigants (especially self-represented litigants) and attorneys. However, in-person courts proceedings remain the very best way to conduct hearings. Also, technology has somehow bolstered with disrespect. Individuals have had no problem using profanities, hanging up, yelling and otherwising disrupting court proceedings. It is much more difficult to control proceedings when the participants are not in the actual courtroom. | 5/14/2021 9:40 AM |
| 6 | n/a | 5/14/2021 9:38 AM |
| 7 | Accessibility | 5/14/2021 9:29 AM |
| 3 | Problem is people on phone can't hear people in courtroom. | 5/14/2021 8:49 AM |
|) | Confusing for older generations. | 5/14/2021 8:47 AM |
| 10 | They are wonderful for immediate threat of a real threat of contagion when that threat is so real it should suspend or stretch the meaning of due process to prevent an imminent threat of death or serious injury. But, in person presentations allow for more meaningful exercise of right of confrontation, identification and examination of evidence. | 5/14/2021 8:43 AM |
| 11 | Many people appreciate the ability to appear remotely. We have had very few issues. Anyone who is unable to appear remotely or would prefer to appear in-person has been allowed to appear in-person. | 5/14/2021 8:01 AM |
| 12 | Constant changes (complaints are fewer as this has stabilized). Lack of access of some parties to internet services (addressed above). Lack of efiling in my department (Probate/MH, PLEASE address this). | 5/14/2021 7:57 AM |

| 13 | Its success depends on the level of technology available to litigants and attorneys. | 5/14/2021 7:47 AM |
|----|--|--------------------|
| 14 | I have heard from other attorneys and judges that it can be very difficult to conduct PHs and trials over zoom or other video hearings | 5/14/2021 7:45 AM |
| 15 | The biggest difficulty is ensuring the ability to share and distribute exhibits for hearings, particularly for SRLs | 5/14/2021 7:42 AM |
| 16 | none - haven't used | 5/14/2021 7:40 AM |
| 17 | Attorneys have become too reliant on it. There have been many dependency and severance trials where the parents are alone in court and their attorneys are on the phone, which at times seems cruel. | 5/14/2021 7:40 AM |
| L8 | It's confusing, but it is more convenient, because location is not an issue. | 5/14/2021 7:37 AM |
| L9 | Not everyone is computer literate and do not own a computer | 5/13/2021 4:53 PM |
| 20 | none | 5/13/2021 2:02 PM |
| 21 | Difficulty for self represented defendants to clearly understand Court procedures, legal language and use of technology. Victim services helps those who are in need of help with OOP/IH Petitions | 5/13/2021 1:49 PM |
| 22 | concerns with identification of the parties and potential identity challenges in the future as related to convictions that are not administered in-person. it is extremely difficult to manage various modes of appearances and help staff feel competent in in-person, telephone and video appearances | 5/13/2021 1:42 PM |
| 23 | telephonic appearance is generally available. Technology with video is not. | 5/13/2021 11:32 AM |
| 24 | Additional training and technical support resources are required. | 5/12/2021 4:28 PM |
| 25 | Helpful for parents in Dependency cases who lack transportation and/or have work. | 5/12/2021 12:24 PM |
| 26 | We are a remote court, so participants are very happy to not have to drive for an hour or more to appear in person. | 5/12/2021 9:59 AM |
| 27 | Relatively few. The hospitals where we conduct mental health hearings are glad not to have to transport patients during the pandemic. Only less than a handful of the mental health patients have requested either in person or visual appearance. None of my probate cases have requested that. My experience is narrow with this, so my comments should be considered given the areas I cover. I have been surprised at how well generally this has gone - especially with my usual problems with technology | 5/12/2021 9:30 AM |
| 28 | Need better connective systems | 5/11/2021 6:28 PM |
| 29 | None | 5/11/2021 4:16 PM |
| 30 | it is too informal and family law litigants don't take proceeding seriously; often have poor quality of video or audio requiring down time in hearing and need to schedule continued hearing at later date delaying issuance of ruling; use it for scheduling only. | 5/11/2021 4:05 PM |
| 31 | The only criticism I have received is that some attorneys are not well-versed in the various platforms. Therefore, they have difficulty during oral arguments. | 5/11/2021 3:49 PM |
| 32 | The Teams app is atrocious. It never fails to fail. I need an IT person about 3 times a day. | 5/11/2021 3:48 PM |
| 33 | we didn't use anything during pandemic/ court ran as always before and during pandemic | 5/11/2021 2:46 PM |
| 34 | None really. There were some hiccups at first but it did not take long for everyone to get on board. | 5/11/2021 2:32 PM |
| 35 | Too in-personal | 5/11/2021 2:15 PM |
| 36 | I agree that time and resources are saved by doing things digitally, however, the human contact between defendant and attorney, between judges and litigants is lost. | 5/11/2021 2:14 PM |
| 37 | none | 5/11/2021 1:30 PM |
| 38 | Litigants and witnesses are receiving improper assistance during their sworn testimony from other people or documents which have not been admitted into evidence. When we recognize it, | 5/11/2021 1:05 PM |
| | | |

| | we address it through instructions, but it is impossible to control the testifying environment like during an in-person proceeding in a courtroom. I think this is a significant limitation to virtual evidentiary hearings and trials. I have been uncomfortable with this issue throughout our use of virtual hearings, but I balanced my concerns against the need to keep the wheels of justice moving during a public health crisis. Additionally, there were infrequent objections to proceeding with evidentiary hearings and trials in a virtual setting. Participants appeared to recognize the challenges the system faced, but the lack of an objection is not the only factor we should evaluate in assessing whether we are truly providing due process. I support leveraging technology for greater access to the Courts and more efficient operations, but I am concerned a failure to return in-person evidentiary hearings and trials in the vast majority of cases, may result in continued compromise of important principles without reasonable justification such as a national health emergency. I also feel some of the electronic filing and exhibit handling processes we have implemented, while adding certain efficiencies, may create advantages for those with greater access to or familiarity with electronic systems. | |
|----|---|--------------------|
| 39 | I really like leveraging technology to increase access to the courts. Not only do they save time and money for everyone involved, but they also protect people at the courthouse. Tech not only protects people from infectious diseases like COVID, but from physical threats, e.g., in a hearing on an order of protection. I'm afraid that once COVID is over, that there will be a temptation to go back to business as usual. Not only will the courts allow our technical skills to lag and ultimately atrophy, but I'm afraid that some judicial officers will affirmatively INSIST on people coming to court in person. We now know that we don't need to be so rigid in what we are ordering people to do and that we won't suffer any significant loss of quality if we continue to leverage tech going forward. | 5/11/2021 12:43 PM |
| 40 | None that I know of. | 5/11/2021 12:35 PM |
| 41 | n/a | 5/11/2021 12:20 PM |
| 42 | n/a | 5/11/2021 12:14 PM |
| 43 | Great convenience for marginally economically secure families and parents with children. | 5/11/2021 11:48 AM |
| 44 | Many defendants have been very pleased to be able to appear electronically. | 5/11/2021 11:42 AM |
| 45 | Some complain they don't understand how to use it. Others say it safes time. Interpreted matters pose a particular challenge.r | 5/11/2021 11:02 AM |
| 46 | Need more people with the technology | 5/11/2021 11:01 AM |
| 47 | sometimes does not work | 5/11/2021 10:58 AM |
| 48 | There is a strong inability to judge truthfulness of witnesses testifying. Also, there is great difficulty in controlling the proceedings. | 5/11/2021 10:58 AM |
| 49 | Use of technology based platforms should be a tool in court proceedings going forward. That does not mean that every hearing should only have parties using technology based platforms. It just means that such platforms should be available for use when needed. | 5/11/2021 10:45 AM |
| 50 | N/A | 5/11/2021 10:36 AM |
| 51 | video evidentiary hearings are adequate, but in person hearings are the gold standard, and should be the goal. maintaining public access to online proceedings at this time means allowing the merely curious to simply login anonymously to watch very personal though public proceedings that they would not attend in personthe proceeding is open to them but they are not visible/open to the proceedingjust as one cannot just click on all docket entries and pull up family law documents from a home computer, people should not be able to click on youtube and anonymously watch their friends' divorce and child custody hearings. I also don't believe it is appropriate for the fact finder not to be visible to the litigants during their proceeding. And though I believe online hearings are adequate, in person hearings remove questions regarding whether a litigant or other participate who is not visible is say, consulting additional materials, receiving advice, in a setting where they can focus on the proceedings, and that the children are not present or within earshot. Pro se litigants are often not visible during the hearings because they call in; again, while this is adequate, it is not ideal, as the factfinder should be able to see the other litigants and the factfinder. | 5/11/2021 10:36 AM |
| 52 | n/a | 5/11/2021 10:32 AM |
| | | |

| 53 | Prefer in-person hearings. It allows the court and litigants to make more accurate determinations of reliability and motivation. | 5/11/2021 10:21 AM |
|----------|---|--|
| 54 | 1. Big concern is use of interpreters. It feels like parties using interpreters are barely actually present by video or audio. And the ability of interpreters to manage is very mixed. 2. I do not know who is in the room with a party; lawyers think they can prompt their clients and it is hard to police. 3. We need universal expectations, at least per department; e.g., do we all let parties/witnesses/lawyers appear without a camera? 4. We need excellent, understandable and accurate instructions on expectations of how people are expected to appear. | 5/11/2021 10:03 AM |
| 55 | It's hard as a judicial officer to be as personable remotely. Exhibits are problematic for t he self-represented | 5/11/2021 9:54 AM |
| 56 | We are a rural county. There was little IT support for tech based platforms and no training. I still have no idea how to use Zoom, Skype, or any of the other video meeting apps. I do have 2 giant screens in my courtroom along along with cameras and microphones everywhere but no one knows how to use them . | 5/11/2021 9:53 AM |
| 57 | the lack of knowledge and training of the technology for staff, judges and the public appearing. | 5/11/2021 9:49 AM |
| 58 | n/a | 5/11/2021 9:46 AM |
| 59 | Lack of dependability Technical Issues Access to All Bandwidth | 5/11/2021 9:44 AM |
| 60 | Not uniform application | 5/11/2021 9:30 AM |
| 61 | All exhibits need to be distributed to all parties/witnesses for reference during hearing. Attorneys need to be proficient in the online platform, including being able to share their screen to show a witness an exhibit. All parties should be encourages to use video cameras to participate rather than just using telephone call-in features, where possible. | 5/11/2021 9:28 AM |
| 62 | In the absence of a pandemic, we should conduct court proceedings to the extent possible in person. And, if doing so ultimately costs more, we should pay the extra cost. The quality and content of our justice system should outweigh cost efficiencies unless the electronic proceeding has no high stakes outcomes and can simultaneously save costs for the parties. | 5/11/2021 9:27 AM |
| 63 | none, although some of the attorneys aren't familiar with all the available features in teams | 5/11/2021 9:26 AM |
| 64 | many technical problems causing delays on heavy court calendars, reduces appearance rates, increases number of warrants issued, increases time on quashing additional warrants, delays court processing times for criminal cases. | 5/11/2021 9:22 AM |
| 65 | Litigants like it because it reduces cost for travel time and time off work. Attorneys like it because it reduces the problems associated with having to be in multiple courts on any given morning. | 5/11/2021 9:16 AM |
| 66 | The biggest criticism is that tech-based platforms don't work well when one of the parties does not have the necessary internet bandwidth. It makes it really hard for a quality hearing to occur when that happens. | 5/11/2021 9:08 AM |
| 67 | In many areas, the use of technology has improved the efficiencies of many court proceedings. | 5/11/2021 9:06 AM |
| 68 | Somewhat difficult for the less technology savvy participant. Those who live in remote areas have more issues with internet service. | 5/11/2021 9:06 AM |
| 69 | One defendant faced a barrier completing court ordered classes on her computer or smart device. She had neither and there were no in-person sessions offered. This may effect the older crowd that is not as tech savvy. | 5/11/2021 9:00 AM |
| 70 | Keep allowing them to occur for easy, quick hearings!!!!! | 5/11/2021 8:58 AM |
| 71 | It's not nearly as reliable as needed. | 5/11/2021 8:53 AM |
| 72 | People abused it | 5/11/2021 8:48 AM |
| | | |
| 73 | Participants tend to take things less seriously in less formal virtual environment. | 5/11/2021 8:44 AM |
| 73 74 | · | 5/11/2021 8:44 AM 5/11/2021 8:42 AM |

| 76 | At times undependable and takes time to get all connected. | 5/11/2021 8:38 AM |
|----|---|-------------------|
| 77 | None | 5/11/2021 8:33 AM |
| 78 | Prior to eviction hearings the parties rarely have a chance to communicate and come up with a stipulated agreement. | 5/11/2021 8:22 AM |
| 79 | Inability to effectively use exhibits. Difficulty managing hearings where one or more of the participants are unfamiliar with the technology being used by the court. | 5/11/2021 8:21 AM |
| 80 | As much as we progress technologically, we need to progress equally or more with tech security for our information and proceedings. | 5/11/2021 8:21 AM |
| 31 | Too many attorneys are not treating virtual appearances as if it is not an actual court appearance. Many avoid turning on cameras to avoid court seeing they are inappropriately dressed, are driving, or are engaged in some recreational activity while appearing in court. | 5/11/2021 8:18 AM |
| 82 | Parents and lawyers are very happy about technology-based (video/phone) conferences at juvenile court. Much improved attendance by the parties. | 5/11/2021 8:15 AM |
| 33 | There are many options available that have yet to be utilized and could have been | 5/11/2021 8:15 AM |
| 34 | Could be used more. | 5/11/2021 8:15 AM |
| 35 | None | 5/11/2021 8:06 AM |
| 36 | It would be nice to have an IT person available to ask questions when troubleshooting how to improve connections and accessibility for the smaller courts. | 5/11/2021 8:05 AM |
| 37 | None | 5/11/2021 8:05 AM |
| 38 | none | 5/11/2021 8:05 AM |
| 89 | The impression that the court system will trample due process and liberty rights for marginal gains in safety is not likely to increase confidence in the judiciary. We need to be certain that measures we implement are not merely for show but actually accomplish something, particularlt when such measures limit access to justice. | 5/11/2021 8:04 AM |
| 90 | Most litigants and attorneys appreciate the convenience and reduced time and expense of appearing remotely. The most frequent problems involve inadequate bandwidth or pro se litigants who lack the necessary computer equipment and/or technological knowhow. | 5/11/2021 8:00 AM |
| 91 | I don't like them for substantive proceedings because it makes things less formal, people take them less serious, demeans somewhat the role of the judge | 5/11/2021 7:56 AM |
| 92 | To the extent possible, we should be seeing the court as a service and not a location. | 5/10/2021 9:57 AM |
| 93 | Need Teams integration with FTR system. | 5/10/2021 9:26 AM |
| 94 | State seems to be most hesitant and without partnership of all parties, makes it appear to be an undesirable process. | 5/7/2021 2:35 PM |
| 95 | Some parties and attorneys want to appear in person. | 5/7/2021 10:29 AM |
| 96 | Alot of people want to appear via zoom, telephone through covid. | 5/6/2021 4:04 PM |
| 97 | We run into issues when exhibits are required. For instance, in a Civil Traffic Hearing, the officer has no idea if the other party is appearing in person or zoom so he comes prepared to court with exhibits in hand. If the defendant appears by zoom we have to scramble to make arrangements to scan those exhibits to the other party and that causes a delay in the hearing schedule. Another example is when a defendant appears by zoom on a criminal matter and getting the original signed documents have been difficult for some of our self represented litigants. | 5/6/2021 2:25 PM |
| 98 | More technology resources for courts. We all threw things together during the pandemic and have a very patchwork system that appears unprofessional at times and can be cumbersome and glitchy for the judges who have to manage everything from the bench. We need a more robust IT plan for the courts to provide technology support and improve consistency throughout the state as regards the public's ability to access courts digitally. | 5/6/2021 12:11 PM |
| 99 | NA | 5/6/2021 11:39 AM |

| 100 | Some people's internet is not able to sustain video appearances, but I think the increased rates of appearance and increased ability to calendar have been appreciated. | 5/5/2021 8:40 PM |
|-----|---|-------------------|
| 101 | Criminal defense counsel have expressed concern about the ability of their clients to participate with their attorney in important evidentiary hearings when done virtually. | 5/5/2021 5:28 PM |
| 102 | Some customers just prefer to appear in person while others prefer to appear remotely. I see technology as another alternative available to customer who choose how to participate. It should not matter what option you prefer, what is important is are courts available either way. | 5/5/2021 5:03 PM |
| 103 | More training needed on holding hearings via Zoom. | 5/5/2021 12:40 PM |
| 104 | Technology is not available to people in the rural communities | 5/5/2021 11:51 AM |
| 105 | For safety of all keep digital court hearings post pandemic | 5/5/2021 11:27 AM |
| 106 | Continued use for non-evidentiary hearings across all departments should be a priority. | 5/5/2021 11:26 AM |
| 107 | Technology has substantially decreased the quality of the Superior Court functions in my criminal proceedings. A multitude of deficiencies ranging from attorney prep.; attorney physical appearance; atty - client communications; audio/sound quality; impediment to the right of confrontation during contested hearings; defendant identification problems, etc. have resulted in a substantial negative impact to the superior court. I believe the honor, tradition, and respect for the court has been diminished. The purported emergency of a global pandemic is now evolving into "efficiency and budget considerations" transforming a "Justice System" into a people management process. Sad Day. | 5/5/2021 9:39 AM |
| 108 | Attorneys like the zoom appearance. | 5/5/2021 9:01 AM |
| 109 | None | 5/5/2021 7:57 AM |
| 110 | It is creating a disparate impact on poor segments of our county that does not have access to reliable/consistent internet service and therefore forces them to drive long distances to address court matters. | 5/4/2021 9:21 PM |
| 111 | I HAVE BEEN A REMOTE JUDGE SINCE MARCH 2020. WE HAVE OUR FILES AVAILABLE ELECTRONICALLY, SO MY DIVISION DID NOT SKIP A BEAT EXCEPT FOR JURY TRIALS. I HAVE HAD HEARINGS WHERE DEFENDANT'S OR COUNSEL ARE SITTING WHEREEVER THEY NEED TO BE TO PARTICIPATE. FOR ATTORNEYS APPEARING IN DIFFERENT COURTS IN VARIOUS PARTS OF THE COUNTY, THE VIRTUAL COURT HAS MADE IT EASIER TO MEET THOSE REQUIREMENTS. INDIVIDUALS USED TO BE REQUIRED TO BE PRESENT FOR ARRAIGNMENTS AND PRETRIALS THAT WOULD OCCUPY HALF OF THEIR DAY. DEFENDANTS WOULD HAVE TO LOSE TIME FROM THEIR WORKDAY. THE VIRTUAL COURT EXPERIENCE HAS SAVED THE PUBLIC TIME AND MONEY. | 5/4/2021 5:31 PM |
| 112 | All parties have appreciated the time savings from appearing virtually. | 5/4/2021 3:53 PM |
| 113 | none | 5/4/2021 3:01 PM |
| 114 | It is easier for the court to have in-person activities. | 5/4/2021 2:10 PM |
| 115 | Reluctance to participate by prosecutor's and court appointed attorneys. Their resistance had to do with the idea that it was easier to meet with the parties in person. | 5/4/2021 1:16 PM |
| 116 | People cannot hear | 5/4/2021 1:04 PM |
| 117 | .Criticism: Degradation of the seriousness of the matter. MUCH greater probability of continuances. | 5/4/2021 12:17 PM |
| 118 | Allowing people to appear by Zoom means they miss less work and don't have to travel to Court. Everyone seems to want Zoom hearings to continue. | 5/4/2021 12:14 PM |
| 119 | Some attorneys or parties do not have sufficiently high speed internet access, and so their appearances will cut out or freeze. Some are not comfortable with remote/video appearance of witnesses. Everyone seems to accept telephonic appearances. We have remote court reporters (RevoText) and attorneys and litigants are growing accustomed to that style of reporting, although there is grumbling from some attorneys. | 5/4/2021 11:38 AM |
| 120 | The technology-based platforms were useful when necessary, but I believe the public expects to have real live contact with judges/courts when not a public crisis. | 5/4/2021 11:36 AM |
| | | |

| 21 | I appreciate that we had to re-think some of the procedures. With more training and practice (and \$\$) I think it could be even better. | 5/4/2021 11:32 AM |
|-----|---|-------------------|
| 22 | Insufficient bandwidth in our rural county. | 5/4/2021 11:18 AM |
| 23 | There was an efficiency study done regarding the PMC by the NCSC 2-23-12 (final report). The recommendation to move from a paper-based system to and electronic system to achieve required efficiencies. It has yet to be accomplished. | 5/4/2021 11:02 AM |
| .24 | Looking at the screen all day is exhausting. In a high-volume calendar, when a witness or party has a tech issue, the practical reality is that we have to move forward with that person on the phone and, of course, audio is less satisfactory than video (even though the appellate record is only based on the audio). | 5/4/2021 10:46 AM |
| 125 | can create an inappropriate cassualness. | 5/4/2021 9:59 AM |
| 26 | None . We have done conference calls but other then that we have had in person court with all precautions taken since we are such a small court. | 5/4/2021 9:46 AM |
| .27 | Lack of functionality (tech issues) and difficulty in managing virtual appearances (i.e. parties speaking over each other, etc). | 5/4/2021 9:39 AM |
| 128 | Haven't used based-platforms | 5/4/2021 9:16 AM |
| 29 | Utilizing technology-based platforms, has reduced the Failure to appear rate in our Courts. | 5/4/2021 8:50 AM |
| 130 | One issue I had was the perception of less formality. It was much more difficult to control the courtroom and the behavior of participants. | 5/4/2021 8:49 AM |
| .31 | No criticism. It has only expanded access. People can watch and participate in cases from out of state, as defendants, victims, family, and witnesses. I conducted a 3 case settlement conference in which 1 case was out of Mohave County. Next of kin (from Mohave County and Maricopa County) appeared virtually, as did the Mohave County prosecutor. This is something that NEVER would have happened pre-pandemic and was incredibly helpful. | 5/4/2021 8:14 AM |
| .32 | Technology slows does the court as judges have to move between files and records on busy calendar days using computers that have a lot of security on them. This is less of a concern on days when there are only a few matters on calendar. Its helpful for litigants who are represented and, sometimes, self-represented. | 5/4/2021 8:09 AM |
| .33 | None | 5/4/2021 8:09 AM |
| .34 | Even if we had the most updated technology, our IT Department cannot support it. Also, the use of technology has resulted in sloppy and embarrassing performances by attorneys. | 5/4/2021 8:04 AM |
| .35 | Slow connections and interrupted proceedings; we have to limit the number of participants | 5/4/2021 7:56 AM |
| 36 | None | 5/4/2021 7:53 AM |
| .37 | None | 5/4/2021 7:02 AM |
| .38 | Nothing at this time. | 5/4/2021 6:28 AM |
| 139 | We need to educate folks about proper protocols. For example, lawyers, like litigants, need to learn digital etiquette. | 5/3/2021 11:23 PM |
| .40 | Many don't have access to computers. | 5/3/2021 9:45 PM |
| 41 | I will continue to use as much as possible in the future even when not required. | 5/3/2021 8:43 PM |
| .42 | none | 5/3/2021 4:49 PM |
| .43 | My criticism is that the use of technology based platforms turns the Judicial System into a fast food type operation. It lowers public perception of the importance of our judicial branch. | 5/3/2021 4:40 PM |
| .44 | Slows down the process. | 5/3/2021 4:33 PM |
| .45 | Issues with screens freezing, audio problems, inability to hear | 5/3/2021 4:32 PM |
| 46 | Litigants and attorneys appear to be more informal and sometimes disrespectful of the court and each other. Participants (attys and parties) talk over each other and interrupt much more often. For example, they put their feet up and walk in and out during court proceedings. If we | 5/3/2021 4:24 PM |

continue to use these platforms, an administrative order should issue to address (similar to any orders in place for court hearings).

| | any orders in place for court noamigs). | |
|-----|---|------------------|
| 147 | Not everyone has the advantage of this platform. | 5/3/2021 4:18 PM |
| 148 | The system is slow | 5/3/2021 4:01 PM |
| 149 | No internet or smartphone | 5/3/2021 3:57 PM |
| 150 | no funding | 5/3/2021 3:50 PM |
| 151 | We've only used the telephone for sentence review types of hearings - no comments or criticisms, works well for defendants who comply and have a phone that accepts messages | 5/3/2021 3:37 PM |
| 152 | Due to some technology issues phone appearances have been utilized mostly, zoom or other type of appearances in which parties SEE a courtroom is preferred otherwise it is a matter of GREAT convenience for most parties | 5/3/2021 3:34 PM |
| 153 | A suggestion would be to have an easily accessible document for unrepresented litigants in family court cases that provides a step by step guide for submitting exhibits to the clerk, and logging in to a video hearing. Perhaps a standardized notice that automatically goes out in every case at the beginning. | 5/3/2021 3:33 PM |
| 154 | The biggest problem is letting litigants know they may appear remotely. The police agencies are not giving them that information. It would be best for litigants if all courts operated in a similar fashion. | 5/3/2021 3:29 PM |
| 155 | They are intimidating to some people. Additionally, some people who work in the justice system are traditionalists and believe all appearances should be in person. | 5/3/2021 3:24 PM |
| 156 | We have not used technology-based platforms, court sessions in-person resumed in May 2020 | 5/3/2021 3:21 PM |
| 157 | None. | 5/3/2021 3:21 PM |
| 158 | The comment I have is one I repeat. The opportunity for an expert to appear remotely cuts costs drastically, and increases the number of cases that the expert can assist with. | 5/3/2021 3:20 PM |
| 159 | defense attorneys want to be present with clients | 5/3/2021 3:17 PM |
| 160 | I would suggest an AZ courts unified case data management system with integrated e-filing, notice, and video-conferencing capabilities. | 5/3/2021 3:06 PM |
| 161 | Excellent opportunity to dramatically expand access to justice! | 5/3/2021 3:06 PM |
| 162 | People have become far too causal in appearing virtually. Examples: one Defendant eating a huge meal, another Defendant was smoking, one was driving down the road while trying to balance his cell phone and appear, one Defendant appeared to be undressed and reached for a towel or blanket to cover up | 5/3/2021 3:04 PM |
| 163 | It would be more convenient if all courts used the same platform (rather than some on Zoom, some on Teams, etc) | 5/3/2021 3:03 PM |
| 164 | I would like attorneys to take fuller advantage of the platform's features. I'd also like them to appear timely. | 5/3/2021 3:02 PM |
| 165 | I have heard good things about opening up the court room to more remote appearances, and only criticism has been from those trying to use it but are not savvy and are mad because they don't want to attend in person and are equally unable to call in or appear by video. Those are perhaps persons who are critical of all obligations to appear, and less helpful in steering the direction of the courts. | 5/3/2021 2:59 PM |
| 166 | Being 14 months into the pandemic, I find it irresponsible for any court to not have secured the appropriate resources and RFQ providers to facilitate criminal changes of plea from defendants being held in custody but on quarantine and thus unable to be transported to court | 5/3/2021 2:58 PM |
| 167 | Technology based hearings do not work well especially when evidence is being presented. In person proceedings are vastly better than remote proceedings in terms of the quality of the presentation and the focus of the parties. | 5/3/2021 2:53 PM |
| 168 | N/A | 5/3/2021 2:49 PM |
| 169 | Mostly problems with connections depending on the location of the party/attorney; also | 5/3/2021 2:46 PM |
| | | |

| | problems with background noise (dogs barking, trains going by, noisy AC units, etc.). | |
|-----|---|------------------|
| 170 | Not much. People generally like the accessibility | 5/3/2021 2:45 PM |
| 171 | Superior Court CTS personnel need to be better trained and more responsive. Many of them seem not to have adequate knowledge or training or experience to assist with and resolve issues that arise. | 5/3/2021 2:42 PM |
| 172 | Non-appearance hearings where no parties physically or virtually appear are not very efficient or effective. In the criminal context, non-appearance hearings requiring the filing of a joint statement are complicated by the errors made by counsel completing the statements, defendants' non-compliance with release conditions, and defendants not communicating with his/her counsel. | 5/3/2021 2:42 PM |
| 173 | After we went to remote I had reservations. However, I have found it to be a wonderful service to the community. Attorneys and litigants are able to appear when otherwise they could not sue to school, work or transportation issues. I think it even promotes safety for litigants. I the majority hearings are kept virtual because it is better for the public whom we serve. | 5/3/2021 2:40 PM |
| 174 | Improved education needed for courts/attorneys on methods to reduce feedback/background noise and methods to improve sound quality. | 5/3/2021 2:38 PM |
| 175 | Video conferencing is too glitchy and the lawyers are not willing to commit the time needed to become proficient at it. | 5/3/2021 2:36 PM |
| 176 | I hope we keep using them in the future. | 5/3/2021 2:35 PM |
| 177 | Nothing negative. If anything it's been helpful. | 5/3/2021 2:27 PM |
| 178 | We have frequently had issues with Mitel with the line crashing. We drop calls often and need to pause. Sometimes no one can even get on the line. The audio is often difficult to hear or creates feedback. People seem very relaxed about court appearances - often calling while driving or engaged in some other task. There is frequently background noise - jack hammers, trains, toilets flushing, dogs barking, birds chirping (loudly) - cats meowing. I had one litigant who was driving a back hoe while testifying. Obviously, I discontinued the hearing when I figured out what was going on. | 5/3/2021 2:27 PM |
| 179 | I have only received positive comments from attorneys and litigants about reduced costs and travel time. | 5/3/2021 2:26 PM |
| 180 | conductivity issues and concerns about victims and incapacitated persons continuing to be victimized during virtual proceedings. | 5/3/2021 2:25 PM |
| L81 | we need to get back to "normal" | 5/3/2021 2:23 PM |
| 182 | We obviously need to maintain public access to court proceedings. I'm not sure how easy it is for members of the public (and the media for that matter) to find a hearing, but it should not be a difficult process. | 5/3/2021 2:22 PM |
| 183 | the attorneys have become much lax | 5/3/2021 2:20 PM |
| .84 | Some litigants have complained about difficulties logging on to Teams. | 5/3/2021 2:19 PM |
| .85 | We have very poor internet reception at our court | 5/3/2021 2:17 PM |
| 186 | None | 5/3/2021 2:16 PM |
| L87 | Technology-based platforms should be continued after the pandemic because it gives a court additional tools and abilities to conduct hearings both in custody and out. | 5/3/2021 2:16 PM |
| 188 | Seniors find it more difficult to manage. There appears to be a lack of understanding of the technology. | 5/3/2021 2:15 PM |
| 189 | None, the public likes the fact that they can appear via virtual platform. | 5/3/2021 2:13 PM |
| 190 | All platforms have some bugs, but I believe the bugs will eventually be worked out, and we will be able to provide the same/better service post-pandemic with the use of technology-based platforms at less cost to the taxpayer. | 5/3/2021 2:09 PM |
| 91 | Really benefits parties and attorneys for scheduling and ease of appearing in court | 5/3/2021 2:09 PM |
| 192 | our internet speed has created difficulty | 5/3/2021 2:09 PM |
| | | |

| 193 | Not as much engagement. Not enough judicial authority (judges think). | 5/3/2021 2:08 PM |
|-----|--|------------------|
| 194 | I think a single format should be adopted for all courts with the primary focus on the ease and clarity it offers defendants. | 5/3/2021 2:08 PM |
| 195 | They have been very helpful and some form should remain even post-pandemic. | 5/3/2021 2:08 PM |
| 196 | longer hearings | 5/3/2021 2:07 PM |
| 197 | Court's should be in the business of serving people. There is a place for technology, but it should not replace personal engagement between courts and litigants. | 5/3/2021 2:06 PM |
| 198 | We have received positive comments regarding the audio recordings posted from the public and media. | 5/3/2021 2:06 PM |
| 199 | There does need to be better training and IT assistance with technology. | 5/3/2021 2:05 PM |
| 200 | To address technical issues and the "digital divide," I have often been forced to permit attendance by telephone in situations where video appearance would have been greatly preferred because credibility is at issue. Also, remote appearances cause some litigants and other non-lawyers to take the proceedings less seriously and offer less respect to other litigants and the court than they would if they were appearing in a formal courtroom. | 5/3/2021 2:04 PM |
| 201 | To costly to have that many Glitches. | 5/3/2021 2:03 PM |
| 202 | None | 5/3/2021 2:02 PM |
| 203 | In ability to clearly hear all parties. | 5/3/2021 2:01 PM |
| 204 | n/a | 5/3/2021 2:00 PM |
| 205 | Not enough techs available to respond to problems | 5/3/2021 2:00 PM |
| 206 | None. | 5/3/2021 2:00 PM |
| 207 | They should be expanded and embraced. The past year has shown that you can complete almost every task necessary via a remote option. Save time and money by allowing people to participate remotely. The last year was a culture shift for the good - we should not return to the same old ways of doing things. | 5/3/2021 1:59 PM |
| 208 | I firmly believe that if access to justice is the priority of the state court system then remote hearings are appropriate for everything except for evidentiary trials or hearings. These hearings save litigants missing important work and missing school, and allow more litigants to appear who otherwise might not given limited transportation and other barriers. If we want to make the court accessible to everyone, permitting a great deal more remote hearings will allow that for the reasons above and will greatly benefit the public who simply cannot take off work or miss school. | 5/3/2021 1:59 PM |
| 209 | The digital divide isn't so much an issue because parties can also appear by phone. The hardest part is attorneys using speaker phone or having a bad microphone for computer based appearances. | 5/3/2021 1:59 PM |
| 210 | They are unnecessary | 5/3/2021 1:58 PM |
| 211 | Attorneys sometimes struggle to admit evidence when submitted remotely, but with practice, they have improved their proficiency. The predominant problem has been litigants who are unwilling to try to use the technology. | 5/3/2021 1:58 PM |
| | | |

Q16 What changes in court proceedings would you recommend as a result of your experience working remotely during the pandemic?

Answered: 184 Skipped: 182

| # | RESPONSES | DATE |
|----|---|--------------------|
| 1 | None | 5/15/2021 8:35 AM |
| 2 | I feel courts should have more discretion to utilize remote work as the judicial officers feel comfortable within their own local setting. | 5/14/2021 12:32 PM |
| 3 | I believe that T36 proceedings have been working very well via Zoom. I also think that many family court proceedings have been working very well via Zoom. As Coconino County is a rural county, the use of Zoom in family court proceedings has been very convenient for parties in areas such as Page. However, for folks who reside in the Navajo Nation, there have been come challenges with internet connections. | 5/14/2021 12:16 PM |
| 4 | None. I think the administration in our county and state did a wonderful job of adapting in the face of the pandemic. We were quickly able to continue meeting the needs of the public. I think we learned a great deal and will be able to use the technology developed during the pandemic to improve access to justice in the future. | 5/14/2021 10:13 AM |
| 5 | I would recommend that the technology remain for short proceedings and for out of state and other necessary situations, otherwise a full return to in person hearings of all kinds is preferred. | 5/14/2021 9:40 AM |
| 6 | no experience | 5/14/2021 9:38 AM |
| 7 | I have not worked remotely as a Judge, except for trainings. | 5/14/2021 8:49 AM |
| 8 | Telephonic and video appearances for civil and civil traffic arraignments and hearing | 5/14/2021 8:47 AM |
| 9 | Keep the electronic means of appearance for motions, oral arguments, status conferences and other procedural hearings. Provide for in person appearances where the Court or parties believe that is appropriate. | 5/14/2021 8:43 AM |
| 10 | I would appreciate rule modifications where necessary to allow remote appearances when beneficial to the parties. | 5/14/2021 8:01 AM |
| 11 | We are already working on adjusting our timing of hearingsmore staggered scheduling instead of "cattle calls". I also would recommend implementation of efiling in my department. Opt-in push notifications for court proceedings would be very helpful as well. | 5/14/2021 7:57 AM |
| 12 | Having all of these options available is a great thing and definitely increases access to justice. Everyone's situation - and every Court's situation - is unique, so for each Court to have more discretion in the types of hearings that work for them (in-person, telephonic, video, etc) allows us to better meet the needs of the community we serve. Maricopa County's needs and resources will be vastly different from those of Nogales or Cochise, and that needs to always be kept in mind when making decisions of this type. | 5/14/2021 7:45 AM |
| 13 | For municipal courts, allowing telephonic changes of pleas with no mileage limitation. | 5/14/2021 7:40 AM |
| 14 | We are instituting a policy requiring dependency attorneys appear in person for trial proceedings. | 5/14/2021 7:40 AM |
| 15 | Civil traffic hearings conducted by zoom , especially for those that are out of state | 5/13/2021 4:53 PM |
| 16 | Continue to allow appearances by telephone or other technology when necessary - continue allowing resolution of non-victim criminal and civil cases to be resolved by telephone, other technology and/or mail/email. | 5/13/2021 1:49 PM |
| 17 | we do not work remotely. It does not seem smart to allow access to sensitive Court records from home when courts have no idea who else is in that home and has potential access to that court employee's work information. if we do background on everyone who works in our facility, why would you not apply that same thought to working in the home? we do not allow court | 5/13/2021 1:42 PM |

records outside of the facility, we are the keeper of the official record and will not risk files leaving our facility for any reason

| 18 | more telephonic or technology based hearings for routine or uncontested matters. | 5/13/2021 11:32 AM |
|----|--|--------------------|
| 19 | Do as much for people over the phone. | 5/12/2021 3:25 PM |
| 20 | I would have utilized Zoom more often to conduct hearings rather than continue unless someone could not appear. | 5/12/2021 12:24 PM |
| 21 | I would recommend that remote appearances become the norm, especially for remotely located courts. | 5/12/2021 9:59 AM |
| 22 | More presumptive virtual hearings and appearances and much more willingness to permit telephonic/virtual attendance even when the courts open completely | 5/12/2021 9:30 AM |
| 23 | More substantive hearings remotely | 5/11/2021 6:28 PM |
| 24 | None | 5/11/2021 4:16 PM |
| 25 | use it for scheduling, non substantive proceedings. | 5/11/2021 4:05 PM |
| 26 | Use virtual (electronic) platform for short, uncontested proceedings to save money (attorney fees and time off of work) for parties. | 5/11/2021 3:54 PM |
| 27 | I recommend we continue to utilize technology for those hearings which are not evidentiary in nature. | 5/11/2021 3:49 PM |
| 28 | some video proceedings in simple procedural matters | 5/11/2021 3:48 PM |
| 29 | n/a | 5/11/2021 2:46 PM |
| 80 | Use telephonic and ZOOM more often. It is very efficient. | 5/11/2021 2:32 PM |
| 31 | Keep as much virtual as the Constitution and due process will allow as it helps parties and witnesses access the court system without the stress and difficulty of coming to court. | 5/11/2021 2:15 PM |
| 32 | I think allowing court employees to work remotely has a positive effect on morale, however, it is difficult to monitor work output. I suspect that court divisions will be more able to work remotely than clerk's offices. | 5/11/2021 2:14 PM |
| 33 | Better secured & fenced parking lots for clerks and security screening at the front station would be key to having more and better confidence that staff was safe from the types of confrontations in the future that we have seen them suffer during Covid-19. Our clerks have to take alot of abuse judges calling in should not be allowed if the clerks have to be in the building. | 5/11/2021 1:30 PM |
| 34 | I think we should return to primarily in-person evidentiary hearings and trials as soon as reasonably possible. I would support use of virtual platforms for non-evidentiary proceedings. There may be some evidentiary hearings, upon the agreement of the parties, than can still be conducted via a virtual platform. | 5/11/2021 1:05 PM |
| 35 | The weakest link is the party who doesn't have a phone or doesn't have internet access. I like the idea of giving people safe spaces to participate in court hearings remotely, e.g., in a protective order center or adjacent spaces, where the tech and some coaching are available for people to use. Equipment and coaching are essential to help people participate virtually. | 5/11/2021 12:43 PM |
| 36 | The need to make courts file free, for those courts still working with files. Working remotely was challenging having files. | 5/11/2021 12:35 PM |
| 7 | If someone has a cold, aggravated asthma, COPD, excessive coughing / sneezing, they should be willing to wear a disposable mask for safety and the courtesy of others. | 5/11/2021 12:20 PM |
| 8 | Return to "in person" business. | 5/11/2021 12:14 PM |
| 9 | Keep remote appearances in place for inconsequential/routine hearings and as an option for more intensive court hearings. | 5/11/2021 11:48 AM |
| 0 | Continue with remote hearings - especially for civil traffic hearings | 5/11/2021 11:42 AM |
| 1 | Continuing with technology in criminal cases | 5/11/2021 11:01 AM |

| 42 | more use, especially for out of town people who need to be in court | 5/11/2021 10:58 AM |
|----|--|--------------------|
| 43 | No to use when conducting actual trials/evidentiary hearings. | 5/11/2021 10:58 AM |
| 44 | I have not worked remotely during the pandemic. | 5/11/2021 10:45 AM |
| 45 | TELEPHONIC ARRAIGNMENTS/INITIAL APPEARANCE | 5/11/2021 10:36 AM |
| 46 | I would recommend that all resolution management conferences and status conferences be conducted by phone, unless one of the parties wants it to be in person. | 5/11/2021 10:36 AM |
| 47 | n/a | 5/11/2021 10:32 AM |
| 48 | None | 5/11/2021 10:21 AM |
| 49 | Universal broad band? I came into the office every day except the first month. | 5/11/2021 10:03 AM |
| 50 | I never worked remotely during the pandemic. Many attorneys and litigants appeared by telephone during the pandemic. It makes determining the credibility of a witness, a party, or a lawyer very difficult. In addition, people tend to talk over one another and I am sure that wrecked any recording of the proceeding. | 5/11/2021 9:53 AM |
| 51 | Continuing to allow people the ability to appear remotely (but must be by video showing their face for identity purposes) for most all hearings except for change of pleas in CR and JT's as it has been so much more efficient and the appearance rate is the highest I have seen in 20 years being in the courts. | 5/11/2021 9:49 AM |
| 52 | n/a | 5/11/2021 9:46 AM |
| 53 | In a medium sized GJ court, remote work was difficult and we would not be continuing with that option. | 5/11/2021 9:44 AM |
| 54 | We need more bandwidth. | 5/11/2021 9:30 AM |
| 55 | Hybrid proceedings that allow some parties to appear by video, while other parties appear in person. Remote proceedings, where agreed upon by all parties. | 5/11/2021 9:28 AM |
| 56 | No obvious changes necessary in my court which is an appellate court. | 5/11/2021 9:27 AM |
| 57 | keep using remote appearances to the extent appropriateit's an access to justice issue, and saves time and expense for litigants. | 5/11/2021 9:26 AM |
| 58 | If a hearing can be conducted remotely, with all litigants feeling heard, it should be conducted remotely. I also like the concept of hybrid hearings. If some litigants want to come to court and others want to appear remotely, we should be able to accommodate that. | 5/11/2021 9:16 AM |
| 59 | I would recommend that smaller, non-evidentiary hearings continue to occur via Teams. It's far more cost efficient for attorneys and their clients, keeps people from having to come downtown, and makes sense given the short length of the hearing. | 5/11/2021 9:08 AM |
| 60 | The court ought to make available more resources for individuals who do not possess the equipment to appear by video platform to appear by video (like what's provided through the order of protection centers). | 5/11/2021 9:06 AM |
| 61 | Do as many remote hearings as possible | 5/11/2021 8:58 AM |
| 62 | Resolution Management Conferences can be telephonic by default. | 5/11/2021 8:53 AM |
| 63 | Continue the use of non-appearance "hearings" in criminal court to reduce unnecessary hearings. | 5/11/2021 8:44 AM |
| 64 | Don't need as many in-person hearings. | 5/11/2021 8:42 AM |
| 65 | Allow parents to continue to appear remotely if they so choose. | 5/11/2021 8:39 AM |
| 66 | Keep increased use of remote hearings in place of live appearances | 5/11/2021 8:38 AM |
| 67 | Did not work remotely. | 5/11/2021 8:33 AM |
| 68 | Increased use of virtual hearings for routine matters. | 5/11/2021 8:21 AM |
| 69 | Most if not all Pretrial hearings can be done virtually for all case types. | 5/11/2021 8:21 AM |

| Continue setting time certain hearings with virtual appearance calendar matters in place of resuming the old "cattle call" a Keep most hearings virtual, if possible. More availability to Weber or video appearances using Mice not sure | approach. 5/11/2021 8:15 AM |
|---|---|
| 72 More availability to Weber or video appearances using Mic 73 not sure | |
| 73 not sure | rosoft platform 5/11/2021 8:15 AM |
| | |
| 74 None | 5/11/2021 8:15 AM |
| 74 None | 5/11/2021 8:06 AM |
| 75 Didn't really work remotely to provide feedback. | 5/11/2021 8:05 AM |
| 76 More allowance for telephonic appearances. Almost the sa easier for self-represented litigants in rural communities | me benefit as audiovisual and far 5/11/2021 8:05 AM |
| 77 None | 5/11/2021 8:05 AM |
| 78 I'm not sure. | 5/11/2021 8:04 AM |
| 79 NA | 5/11/2021 8:02 AM |
| 80 none | 5/11/2021 7:56 AM |
| 81 I think we learned that it is cost effective for represented li remotely. It also helps participants in treatment courts to n their employment. | |
| 82 More training and development of "informal trials" especial | ly in family law. 5/10/2021 9:57 AM |
| Allow any party to appear remotely. | 5/10/2021 9:26 AM |
| 84 Court rules that are based on old paper-based, appear in c | ourt methodologies 5/7/2021 2:35 PM |
| 85 It should remain an option to accept guilty pleas and sente pleas using technology rather than requiring the party to ap | |
| 86 None | 5/6/2021 4:04 PM |
| 87 While I think the Zoom appearances are convenient for att is has been a shift towards a relaxed attitude to needing to zoom will be granted without even filing a motion and I fee have to come to court. However, sometimes a court appear matter) should be inconvenient to some extent. I feel the in System is at risk if even the embarrassment, etc. of havin While technology has some great tools to be utilized, there thus creating bigger issues that we may not be prepared for | appear. Some attorney's assume most would want the ability to not arance (especially in a criminal ntegrity of respect for the Judicial g to return to court is diminished. a is the possibility we can go too far - |
| 88 Improve the IT foundations to make virtual hearings more remotely. | seamless and easier to manage 5/6/2021 12:11 PM |
| 89 NA | 5/6/2021 11:39 AM |
| 90 I would recommend there be more locations established an courthouses) for people to be able to appear remotely, hav have good internet or computer access. And generally, I w remote hearings and proceedings. | ing an option for people that do not |
| 91 I would recommend that if courts will be allowing for this re that a committee be put together to review remote process courts. During this pandemic we had to purchase technolo place that may not necessarily be in compliance with our r example, a notice of remote hearing is going to be differen ok but the contents of this notice should be standardized. forms. They are standardized across the state regardless | tes to ensure consistency among the gy equipment, put processes in normal noticing instructions. For t across all of the courts and that's One good example, is the OOP |

| 92 AOC providing tech equipment recommendations 93 None | 5/5/2021 11:51 AM 5/5/2021 9:39 AM |

| | appear as scheduled. | |
|-----|---|-------------------|
| 95 | Uncertain | 5/4/2021 9:21 PM |
| 96 | IN ORDER TO PROPERLY ANSWER THIS QUESTION, I WOULD ASK THAT A COMMITTEE BE FORMED TO ADDRESS ALL ISSUES THAT A VIRTUAL COURT ENCOUNTERS | 5/4/2021 5:31 PM |
| 97 | Changing of the Rules to allow virtual appearances but still allow a Defendant the right to appear if they wish. Requiring County Attorneys to allow virtual Online Dispute Resolution if the Rules of Procedure are changed. | 5/4/2021 3:53 PM |
| 98 | Allowing ADOC inmates to appear by phone, video or ZOOM | 5/4/2021 3:01 PM |
| 99 | I think we should go back to in-person | 5/4/2021 2:10 PM |
| 100 | We have not worked remote for the majority of the pandemic. We adjusted exposure by attempting to limit admission to court to only those that have active cases. | 5/4/2021 1:16 PM |
| 101 | That all Pretrial Conference be held remotely by the County Attorney's office. it helps by lessening that amount of people who come to the courthouse. | 5/4/2021 1:04 PM |
| 102 | Parties should appear in person for court proceedings | 5/4/2021 12:17 PM |
| 103 | Keep remote hearings by Zoom, Teams, and other online platforms. | 5/4/2021 12:14 PM |
| 104 | NONE | 5/4/2021 12:13 PM |
| 105 | Working remotely proved very inefficient for the day-to-day operation of the court. I came to the office, except for a few weeks in the early phase of the pandemic; even then I was at the office most of the week. We were very circumspect about masks, cleaning, and congregating. That would not have worked for the more public aspects of the court, but as a judge and judicial office, it worked for us. | 5/4/2021 11:38 AM |
| 106 | People should be allowed to work remotely if it can be accommodated. | 5/4/2021 11:32 AM |
| 107 | Consistency in platform use and protocols - would help avoid many problems. | 5/4/2021 11:18 AM |
| 108 | Allowing Phoenix Municipal Court judges to work remotely. | 5/4/2021 11:02 AM |
| 109 | I would like to see remote appearances as a permanently available option, to be used at the discretion of the judicial officer. | 5/4/2021 10:46 AM |
| 110 | non | 5/4/2021 9:59 AM |
| 111 | arraignments and pretrial could work out better doing it remotely for some people. | 5/4/2021 9:46 AM |
| 112 | Only hear cases in which meaningful events will take place. | 5/4/2021 9:39 AM |
| 113 | Didn't work remotely | 5/4/2021 9:16 AM |
| 114 | None at this time | 5/4/2021 8:50 AM |
| 115 | See 15. | 5/4/2021 8:49 AM |
| 116 | Telephonically hearings, I think a live video cam is needed in our court room. As a clerk I have the basic on my computer, s iam unable to attend Zoom meetings so I appear telephonically for all meetings and trainings. (for this reason I bring my personal laptop) | 5/4/2021 8:30 AM |
| 117 | Our access has increased so much. We are able to spend time on cases with "time-certain" calendaring and not perpetually waiting for attorneys to bounce from courtroom to courtroom. If we are going to bring back a type of hearing to "in-person" only, we need to truly be able to say that it only works by being in person. We cannot and should not bring back hearings to in-person just because that's always how we've done things. | 5/4/2021 8:14 AM |
| 118 | Allow telephonic or Zoom appearances as the parties request, subject to the timely submission of exhibits and working out an appropriate exhibit protocol. | 5/4/2021 8:09 AM |
| 119 | Use if iPads | 5/4/2021 8:09 AM |
| 120 | I didn't work remotely. I have continued to come to work every day, every week. | 5/4/2021 8:04 AM |
| 121 | Allow electronic case initiation, including filing and initial appearances and arraignments. These | 5/4/2021 7:56 AM |

are generally short proceedings that can be handled quickly via digital means rather than imposing long periods of time for rural parties to travel, take time off work, and lack of child care.

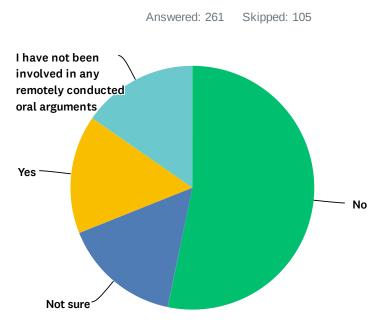

| 122 | None | 5/4/2021 7:53 AM |
|-----|--|------------------|
| 123 | Nothing at this time. | 5/4/2021 6:28 AM |
| 124 | Have as many as possible in person arraignments, pretrial, bench trials, status hearings. | 5/3/2021 9:45 PM |
| 125 | None. | 5/3/2021 8:43 PM |
| 126 | none | 5/3/2021 4:49 PM |
| 127 | Return to inperson court proceedngs | 5/3/2021 4:40 PM |
| 128 | Telephonic appearances for non-substantive hearings should continue. | 5/3/2021 4:34 PM |
| 129 | More use of technology in the future | 5/3/2021 4:33 PM |
| 130 | Keep the short hearings on Teams and the rest should go back to normal | 5/3/2021 4:32 PM |
| 131 | ODR expansion | 5/3/2021 3:57 PM |
| 132 | more funding | 5/3/2021 3:50 PM |
| 133 | Initial appearances/arraignments should be held telephonically or remotely to an extent remote hearings work until a party loses interest or no longer participates | 5/3/2021 3:34 PM |
| 134 | Allowing more scheduling conference, status conferences, review hearings and the like to take place using video conferencing. It saves attorneys time and money reducing costs to clients. Also, an easier way to submit exhibit, or allowing electronic submission of at least a small number of exhibits (or pages). Dropping off paper copies to the Clerk's office seemed to be difficult for most SLRs to accomplish. | 5/3/2021 3:33 PM |
| 135 | I cannot think of any at the moment. | 5/3/2021 3:24 PM |
| 136 | Never worked remotely. | 5/3/2021 3:21 PM |
| 137 | Non-meaningful hearings where only dates are reset should be reset by stipulation. | 5/3/2021 3:21 PM |
| 138 | Sanitation issues should not fall exclusively to court staff. What measures can be implemented so that a cleaning crew could come in at the end of the day for each jury trial? | 5/3/2021 3:20 PM |
| 139 | none | 5/3/2021 3:17 PM |
| 140 | I would suggest an AZ courts unified case data management system with integrated e-filing, notice, and video-conferencing capabilities. | 5/3/2021 3:06 PM |
| 141 | Allow continued discretionary use of IT solutions for the courts. | 5/3/2021 3:06 PM |
| 142 | Except for a few days, I did not work remotely during the pandemic. I was here at the courthouse practically every work day. | 5/3/2021 3:04 PM |
| 143 | I think we just need to become more accustomed to it and not treat it like a temporary measure. Personally, I like using telephone and video for everything except trials. | 5/3/2021 3:03 PM |
| 144 | n/a | 5/3/2021 3:02 PM |
| 145 | I fully appreciate that the inmates are able to appear by video, from all over the country, much better, and I think that everyone needs to be much more adaptable to proceed remotely when it is possible. We also shouldn't be holding attorneys hostage for routine hearings, I think the volume of work done between and while waiting for hearings has to have benefited the profession greatly. | 5/3/2021 2:59 PM |
| 146 | Court personnel are over worked and receiving very little down time. As rotating flex schedule would help relieve the tension | 5/3/2021 2:58 PM |
| 147 | I would only use virtual platforms for hearings when it is absolutely necessary due to safety concerns. | 5/3/2021 2:53 PM |
| | | |

| 149 | Continuing to hold hearings remotely when scheduled for less than or up to one hour, or when all parties/attorneys agree to remote proceedings. | 5/3/2021 2:46 PM |
|-----|---|------------------|
| 150 | none | 5/3/2021 2:45 PM |
| 151 | I would conduct hearings currently being held as non-appearance hearings as virtual hearings. | 5/3/2021 2:42 PM |
| 152 | Keeping everything remote except for trials. | 5/3/2021 2:40 PM |
| 153 | We didn't work remotely, just with reduced court staff in courtroom. | 5/3/2021 2:38 PM |
| 154 | We need better coordination with the clerk's office to allow remote hearings. | 5/3/2021 2:36 PM |
| 155 | Continue using remote platforms | 5/3/2021 2:35 PM |
| 156 | Nothing at present. | 5/3/2021 2:27 PM |
| 157 | I think it is great to have flexibility for staff to work from home - that should remain an option. I also think that its important to still have work/life boundaries. I hear lawyers saying "I'm on vacation that day, but I can call in." It is my practice to tell them to take their vacation! It is important not to let the flexibility mean we don't ever get time off from work. I know I worked remotely with full blown Covid. I should have just taken sick days. | 5/3/2021 2:27 PM |
| 158 | I would recommend that as many hearings as possible be conducted remotely. | 5/3/2021 2:26 PM |
| 159 | In family court, the virtual hearing has greatly reduced the tension during proceedings between the litigants. So that has been caused me to be more in tune with the benefit of having one or both parties participate remotely. | 5/3/2021 2:25 PM |
| 160 | Keeping certain hearings virtual, such as dependency review and permanency hearings. | 5/3/2021 2:19 PM |
| 161 | This court did not work remotely during the pandemic | 5/3/2021 2:17 PM |
| 162 | Going forward no changes- continue using the current technology platform/virtual court | 5/3/2021 2:16 PM |
| 163 | I would like to continue to see all in-custody defendant's using zoom or polycom. It cuts down on transportation cost, man power and increases safety in the courtroom. | 5/3/2021 2:16 PM |
| 164 | We have not worked remotely because there was little availability of laptops to do so. | 5/3/2021 2:15 PM |
| 165 | Continue remote work and provide remote equipment for staff to collaborate and bailiff by telecommuting. | 5/3/2021 2:13 PM |
| 166 | For my rotation, I would recommend holding all proceedings by video/telephone unless special circumstances require in-person proceedings. | 5/3/2021 2:09 PM |
| 167 | use of electronic documents- much more efficient | 5/3/2021 2:09 PM |
| 168 | Remote work at least 1-2 days per week for all employees. | 5/3/2021 2:08 PM |
| 169 | See above. | 5/3/2021 2:08 PM |
| 170 | Courts need to continue to use technology whenever possible. | 5/3/2021 2:07 PM |
| 171 | longer hearings | 5/3/2021 2:07 PM |
| 172 | Where it makes sense interact with participants in person. | 5/3/2021 2:06 PM |
| 173 | Continuing to have the ability to use digital audio in some case types in lieu of court reporters. This aids with staffing challenges. | 5/3/2021 2:06 PM |
| 174 | Judges should be encouraged and in some cases forced to use technology. | 5/3/2021 2:05 PM |
| 175 | None | 5/3/2021 2:02 PM |
| 176 | The widespread practice of working remotely has had a significant negative impact on productivity. | 5/3/2021 2:01 PM |
| 177 | n/a | 5/3/2021 2:00 PM |
| 178 | Make virtual appearances permanent | 5/3/2021 2:00 PM |
| 179 | Allow for remote appearances at all court proceedings. | 5/3/2021 2:00 PM |

| 180 | More remote hearings. Electronic submission of exhibits. | 5/3/2021 1:59 PM |
|-----|--|------------------|
| 181 | I believe everything except for evidentiary hearings should be remote and electronic signatures should be permitted. | 5/3/2021 1:59 PM |
| 182 | Allow more video/telephonic appearances | 5/3/2021 1:59 PM |
| 183 | Return to normal operations. | 5/3/2021 1:58 PM |
| 184 | Reduce overcrowding in the courtroom by scheduling fewer hearings at a time. | 5/3/2021 1:58 PM |
| | | |

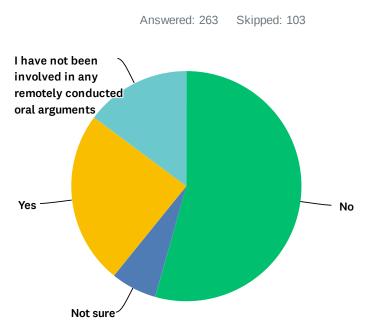

Q17 The following questions are intended to be answered by judicial officers only. If you are NOT a judicial officer, please scroll to the bottom of the page and click "DONE" to submit your responses. Thank you!

Q18 (Judicial Officers Only) Is attorney preparation for oral arguments diminished when attorneys appear using a technology-based platform?

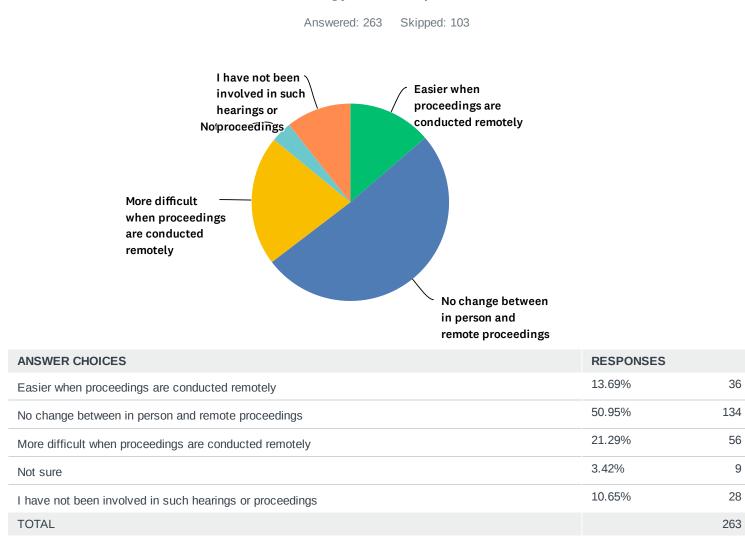

| ANSWER CHOICES | RESPONSES | |
|---|-----------|-----|
| No | 53.26% | 139 |
| Not sure | 15.71% | 41 |
| Yes | 15.71% | 41 |
| I have not been involved in any remotely conducted oral arguments | 15.33% | 40 |
| TOTAL | | 261 |

Q19 (Judicial Officers Only) Is attorney effectiveness diminished in oral argument when attorneys are not physically present?

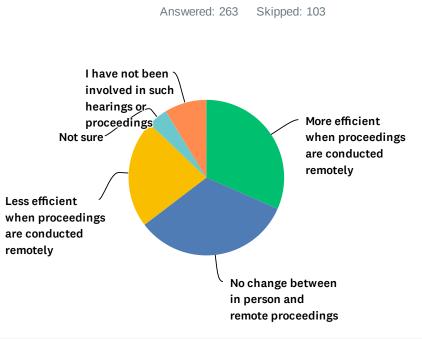

| ANSWER CHOICES | RESPONSES | |
|---|-----------|-----|
| No | 54.37% | 143 |
| Not sure | 6.46% | 17 |
| Yes | 24.33% | 64 |
| I have not been involved in any remotely conducted oral arguments | 14.83% | 39 |
| TOTAL | | 263 |

Q20 (Judicial Officers Only) In your opinion, how has your preparation changed for motion hearings or other proceedings when using a technology-based platform?

Q21 (Judicial Officers Only) In your opinion, how has your efficiency changed for motion hearings or other proceedings when using a technology-based platform?

| ANSWER CHOICES | RESPONSES | |
|--|-----------|-----|
| More efficient when proceedings are conducted remotely | 31.56% | 83 |
| No change between in person and remote proceedings | 33.08% | 87 |
| Less efficient when proceedings are conducted remotely | 22.43% | 59 |
| Not sure | 4.18% | 11 |
| I have not been involved in such hearings or proceedings | 8.75% | 23 |
| TOTAL | | 263 |
