With one call or click, DSU will coordinate a qualified American Sign Language Interpreter to facilitate communication between you and your client, customer, patient or student.

Not only do we provide an experienced interpreter but we handle all coordination down to the very last detail. We eliminate communication barriers so that you can serve your customers. You make the call, then we do it all!
Deaf Services Unlimited employs the most highly qualified interpreters in the field. At a minimum, our interpreters are certified by the Registry of Interpreters for the Deaf (RID), or National Association of the Deaf and have at least three years of interpreting experience. As required by law, all interpreters hold licensure and credentials mandated by the state in which they are providing services.

Deaf Services Unlimited has Certified Deaf Interpreters (CDI) and specialized interpreters working in legal, medical, employment, education, business and performing arts settings.

In the past 20 years, we’ve made more than 1,000,000 conversations possible

CAPTIONING/ CART SERVICES

CART Captioning
Captions are commonly produced in advance for recorded material. When captions are provided for live presentations, they are called “real-time” captions. Communication Access Real-time Translation (CART) is a form of captioning that can be provided on-site or remotely, usually for live presentations such as meetings, classes, or conferences.

Closed Captioning
Using state-of-the-art technology, Deaf Services Unlimited captions your corporate training videos, commercials, public service announcements, and more. We offer fast turn-around service at affordable rates.
